1.0 OVERVIEW

This manual does not cover step by step instructions on every aspect of ResWare. The focus of this procedure is to cover “one-off” situations, and frequently encountered concerns.

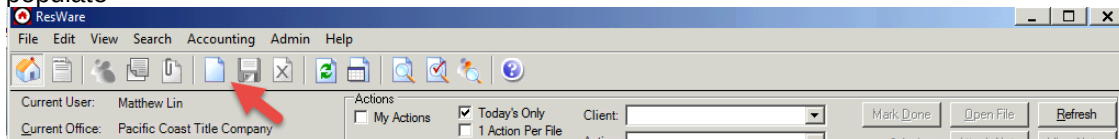

2.0 SHORT CUT KEYS

Below are some shortcut keys that can be used within ResWare:

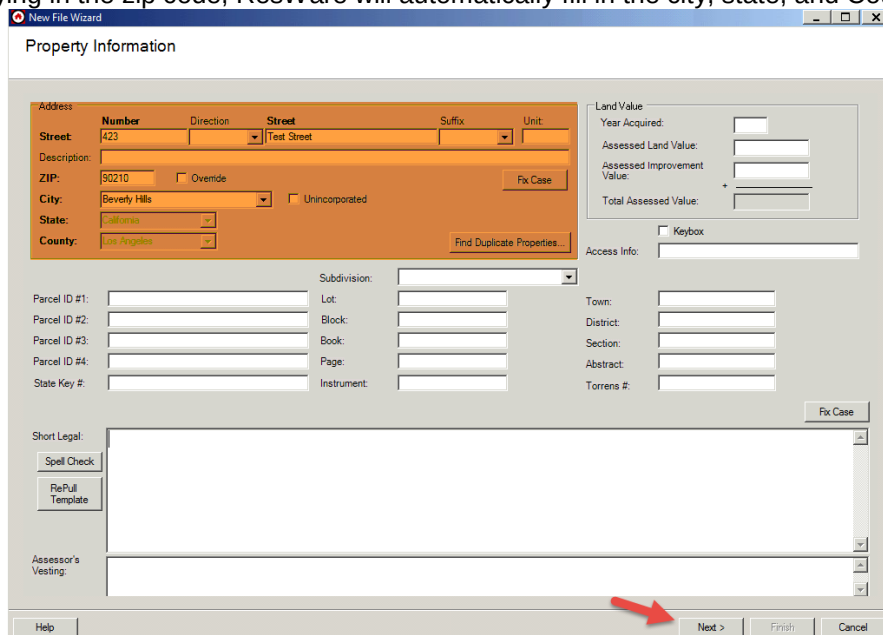

- **F1**: Display help.
- **Ctrl+Shift+F**: Open the File Search window.
- **Ctrl+Shift+A**: Open the Action Search window.
- **Ctrl+Shift+Y**: Open the Partner Search window.
- **Ctrl+Shift+P**: Open the Attach Partner window.
- **Ctrl+H**: Show the Homepage.
- **Ctrl+F**: Show the current file.
- **Ctrl+U**: Show the current file's File Summary report

3.0 OPENING A NEW ORDER IN RESWARE

- Once logged into ResWare, begin by clicking on the icon: Create a new file. A New File Wizard screen will populate

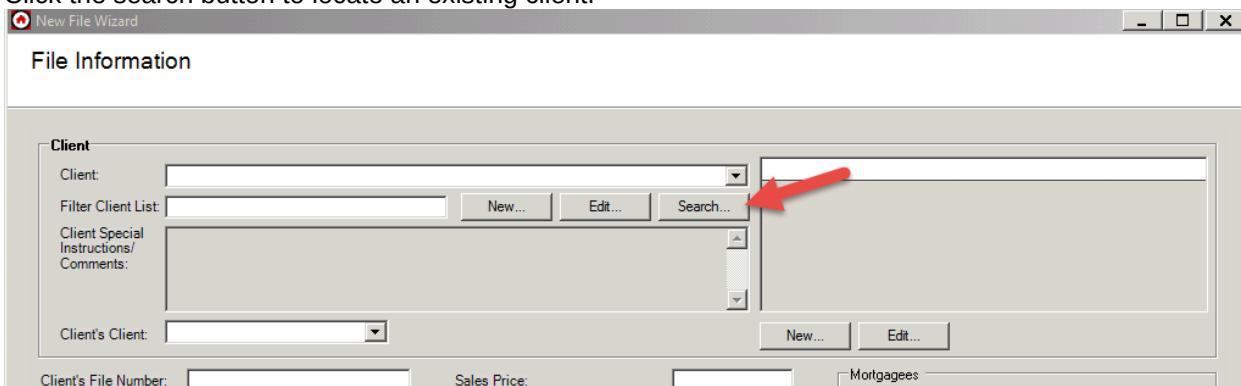

- The first screen that will populate is the property information screen. Fill out as much information as available. At the minimum, a street number, street name, zip, city, state, and county are required. Click next when property information has been entered.
 - Note: by keying in the zip code, ResWare will automatically fill in the city, state, and County fields.

Rev. Date	Rev. No.	Page No.
2/9/2016	1.0	1

- c. The file information screen will now populate. This is where the client information will be selected.
- d. Click the search button to locate an existing client.

MANUAL: TIPS AND TRICKS (T&T)

GROUP: ESCROW

- n. Once the order is opened in ResWare, add all the partners that need to be associated with the file. Some examples of partners could include, but are not limited to the following:
 - i. Tax Collector (Note: tax collector will automatically be added to the file)
 - ii. Escrow Officer (Note: by adding the Escrow Officer, the system will automatically add the Escrow Office)
 - iii. Title Officer (Note: by adding the Title Officer, the system will automatically add the Title Office)
 - iv. Listing Agent
 - v. Selling Agent
 - vi. Outside Escrow Office
 - vii. Marketing Rep
 - viii. Underwriter (Note: by adding the Title Officer, the system will automatically add in Commonwealth as the underwriter)
- o. Begin adding partners by clicking on the add partner button. An example of adding PCT – Glendale title will be shown

The image shows a screenshot of the ResWare software interface. The window title is 'ResWare'. The menu bar includes File, Edit, View, Search, Accounting, Admin, and Help. The toolbar contains various icons for file operations. The main window is divided into several sections. On the left, there's a 'File Information' section with fields for Status (Open), Client (Mariposa Escrow), Source, File Origin (Internal), and Product (Residential: Sale: Title and Escrow). Below this is the 'System ID' (55). In the center, there's a 'Dates' section with fields for Estimated Settlement, Actual Settlement, Contract Received, Contract Close, Disbursement, and Rcvd Sale Notification. To the right of this is an 'Other Information' section with fields for Commitment #, Search #, Client's File #, and 2nd File #. Further right is a 'Teams Available for Assignment' section with an 'Add' button. Below the 'Dates' section is a 'Coordinator Assignment' table with columns 'Type' and 'Team or User'. The table has one row: 'Joint Plant Coordinator' and 'Not Assigned'. At the bottom, there's a 'Partners/Buyers/Sellers/Property' section with a table. The table has columns: Type, Name, Address, Phone, Primary Employee, Employee Phone, Employee Cell, and buttons for 'Add Partner...', 'Add Property...', 'Add Buyer...', 'Add Seller...', 'View...', and 'Remove'. The table contains three rows: 'Property' (423 Test Street, Beverly Hills, CA 90210 (Los Angeles)), 'Buyer' (Bob Buyer), and 'Seller' (Sam Seller). Below the table is a row for 'Client/Source of Business' (Mariposa Escrow, 11080 Artesia Blvd., Suite E, Cerritos, CA 90703, Bibera, Cecilia B.). A red arrow points to the 'Add Partner...' button.

4.0 GENERAL TAB BASICS

4.1 ADDING/REMOVING A PARTNER

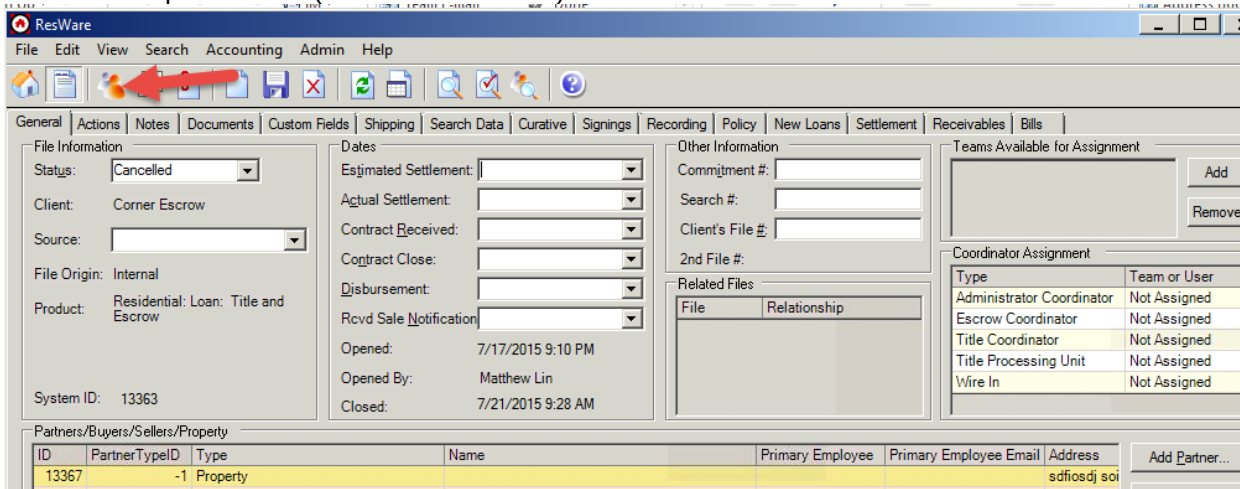

Specific rights have been granted when regards to partners. See below

Access rights	Power User Access	Non Power User access
Add a new partner, but not able to have the Partner approved into the database	Yes	Yes
Ability to fully approve the partner/Partner employee into ResWare database	Yes	No
Ability to edit partner/partner employees	Yes	No

There are a few exceptions: All users have the full ability to add the following partner types to the database without requiring database approval: **A TBD, One Time Payee, and Miscellaneous**

There are many ways to add a partner to a file. This manual will show a common way.

- Make sure you are in the file where you are adding a partner
- Click the add partner icon (or click Ctrl+Shift+P)

The screenshot shows the ResWare application window. The 'Add Partner' icon, which is a person with a plus sign, is highlighted with a red arrow in the toolbar. The application window displays various tabs and fields for file management and partner addition.

MANUAL: TIPS AND TRICKS (T&T)

GROUP: ESCROW

- c. Select an appropriate partner type

- d. In the company name, enter the name. It is highly recommended to enter less information. For example, for Century 21, simply just type C to yield more results (as century may be written out as Century, C-21, C/21, etc)

- e. Click Search to yield results

- f. It is highly recommended, if you receive multiple matches, that you then match and sort results based upon address. You may also refine your search by locating an employee that works for that company

Add to File, Display Fees, New..., View, New..., Reference Number: , Help, Close

Note: Here are some key points when searching the database:

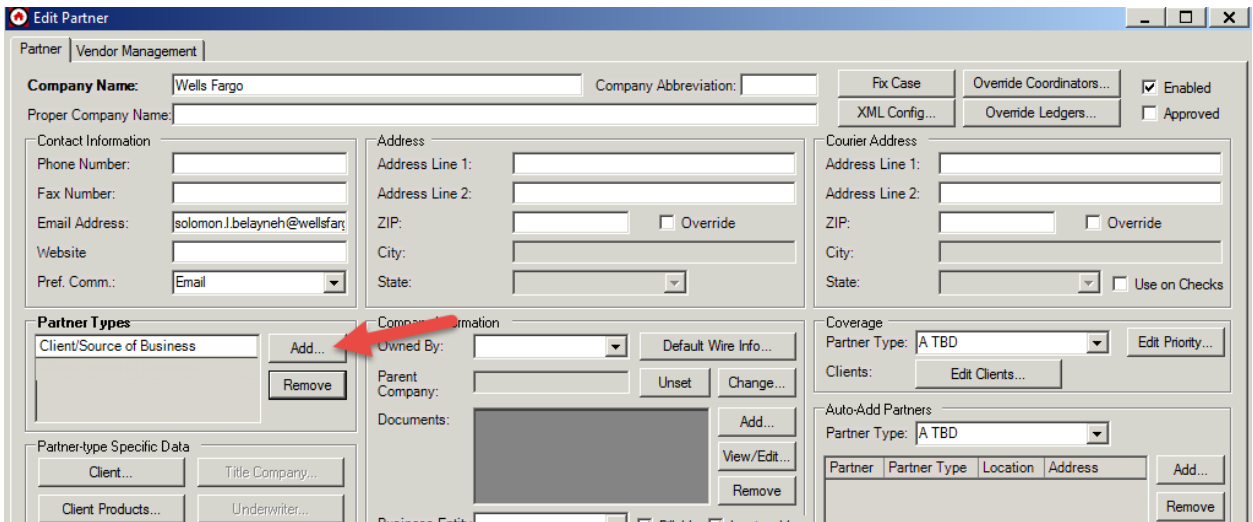

- a. When searching the database, is it possible that the partner is already in the system, but perhaps we didn't save them with the correct partner type? For example, perhaps Wells Fargo was saved as a Mortgage Broker, but not a New Lender. If that was the case, they would not be shown in the New Lender partner type dropdown, and you will have to communicate to the Power User to associate that partner as a New Lender.
- b. Make sure to always let a Power User know if a new partner type, or partner employee is added. The Power User must then approve the partner within the database.

Rev. Date	Rev. No.	Page No.
2/9/2016	1.0	9

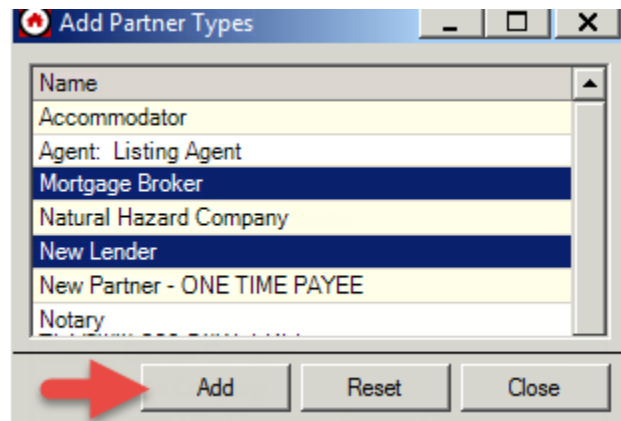

4.1.1 WHAT A POWER USER MUST LOOK FOR

Here are the general criteria:

- a. **Power User must look for duplicates:** Usually a good sign that there might already be a duplicate in the system is for commonly used companies such as Bank of America or Re/Max. It's recommended to search for similar partner companies by address. For example, it's possible that C-21 at 123 Street may also be Century 21 at 123 ST.
- b. **Power Users must merge partner types whenever possible:** Be on the lookout for scenarios when team members add a separate partner many times (for each specific role) instead of just creating one partner, with multiple roles. For example, it's common to see Wells Fargo as the client and the new lender. Instead of creating 2 separate partners, Wells Fargo should be added as both a client and a new lender partner type.
 - i. Below is an example where this new Wells Fargo partner was added in as a client, but we need to add them also as a new lender. Click on Add

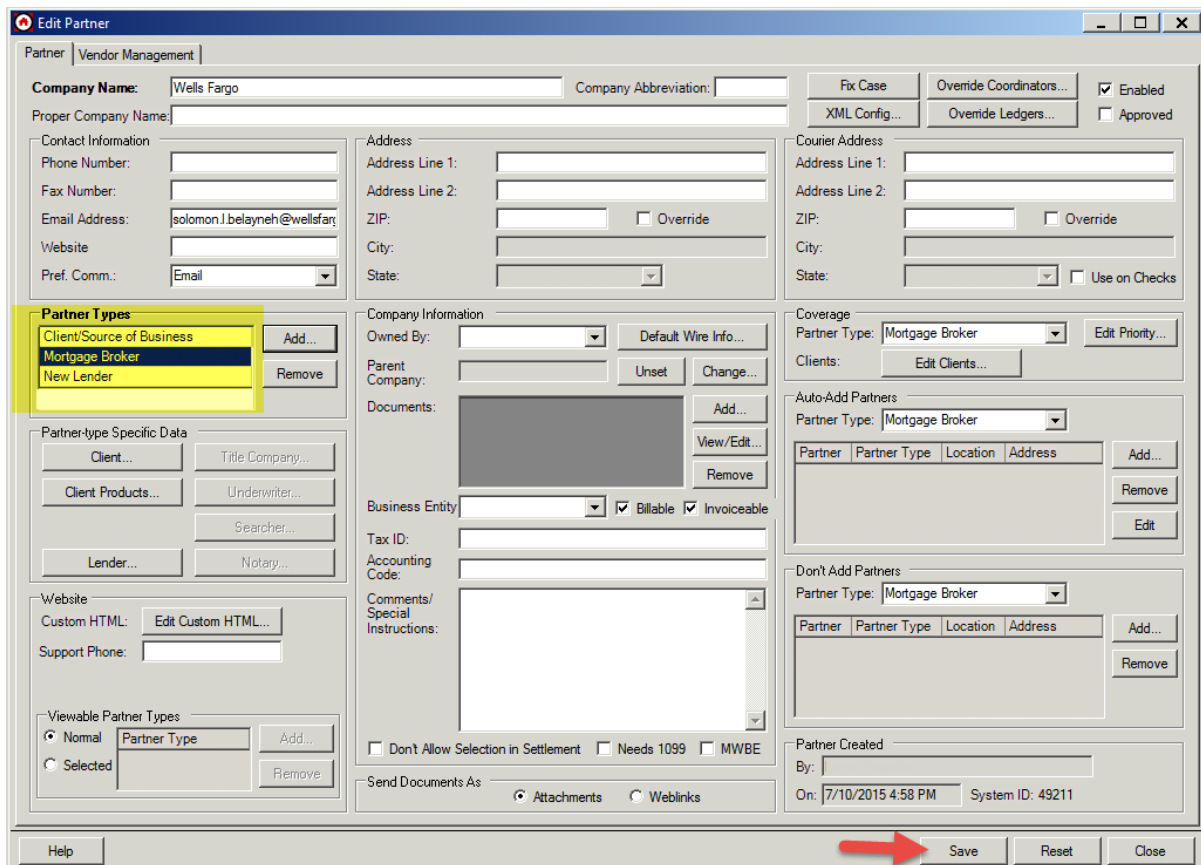

- ii. Add the appropriate partner type(s), then click add

Rev. Date	Rev. No.	Page No.
2/9/2016	1.0	10

- iii. Once all appropriate partner type(s) have been added, click save

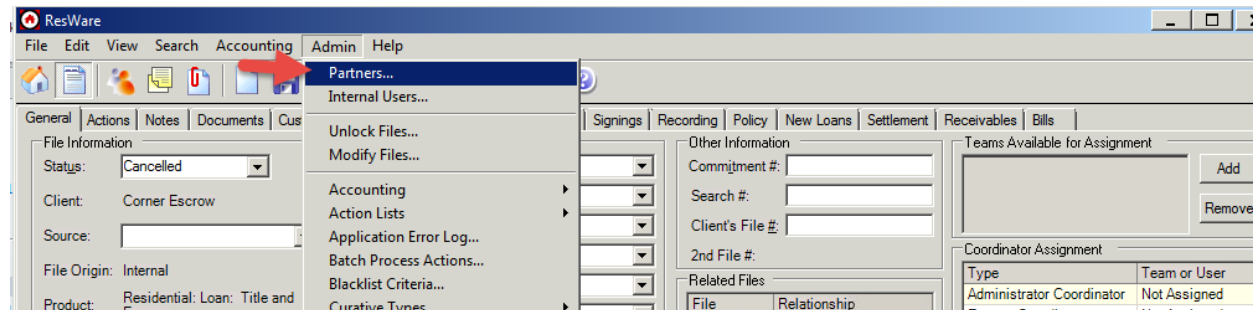

The 'Edit Partner' window is divided into several sections:

- Company Information:** Includes fields for Company Name (Wells Fargo), Company Abbreviation, and Proper Company Name.
- Contact Information:** Fields for Phone Number, Fax Number, Email Address (solomon.l.belayneh@wellsfargo.com), Website, and Preferred Communication method (Email).
- Address:** Fields for Address Line 1, Address Line 2, ZIP, City, and State. There is an 'Override' checkbox for the ZIP field.
- Courier Address:** Similar fields to the main address, with a 'Use on Checks' checkbox.
- Partner Types:** A list box showing 'Client/Source of Business', 'Mortgage Broker' (highlighted), and 'New Lender'. There are 'Add...' and 'Remove' buttons.
- Partner-type Specific Data:** Includes buttons for 'Client...', 'Title Company...', 'Client Products...', 'Underwriter...', 'Lender...', and 'Notary...'.
- Website:** Fields for Custom HTML (with an 'Edit Custom HTML...' button) and Support Phone.
- Viewable Partner Types:** Radio buttons for 'Normal' (selected) and 'Selected', with 'Add...' and 'Remove' buttons.
- Company Information (continued):** Fields for Owned By, Parent Company, Documents (with 'Add...', 'View/Edit...', and 'Remove' buttons), Business Entity, Tax ID, Accounting Code, and Comments/Special Instructions.
- Coverage:** Fields for Partner Type (Mortgage Broker) and Clients (with an 'Edit Clients...' button).
- Auto-Add Partners:** A table with columns for Partner, Partner Type, Location, and Address. It has 'Add...', 'Remove', and 'Edit' buttons.
- Don't Add Partners:** Similar to the Auto-Add section, but for partners not to be added.
- Partner Created:** Fields for 'By:' and 'On:' (7/10/2015 4:58 PM), and 'System ID:' (49211).
- Buttons:** 'Help', 'Save' (indicated by a red arrow), 'Reset', and 'Close'.

- c. Power User should stress to the office to always notify when a new partner is added, when a new partner employee is added, or when there is a need to modify existing partner company or partner employee. Once a Power User is notified, the following are the steps required to review and/or add to the database:

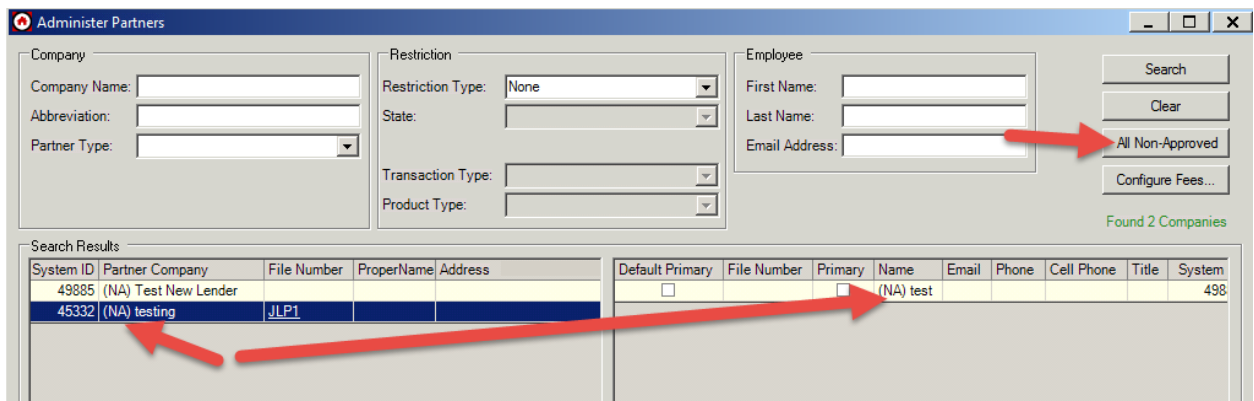

- i. Go to Admin/Partners

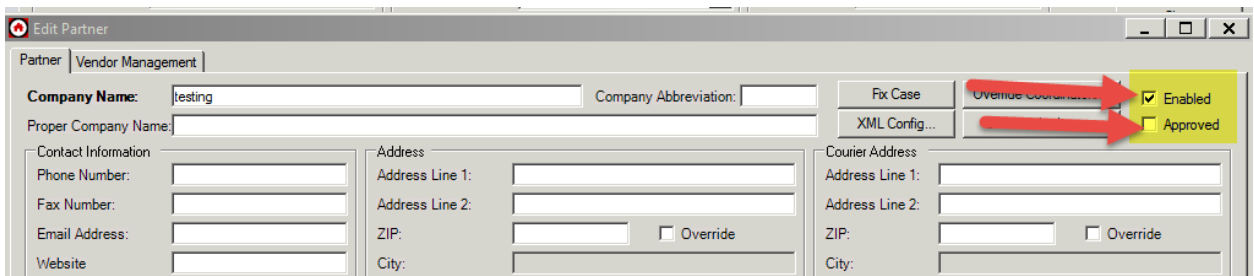

The screenshot shows the ResWare application window. The 'Admin' menu is open, and the 'Partners...' option is highlighted with a red arrow. The background shows various tabs like General, Actions, Notes, Documents, and Cus.

Rev. Date	Rev. No.	Page No.
2/9/2016	1.0	11

- ii. Click on the following button: All Non- Approved
- iii. Note that there are 2 companies in this example that are not approved. Also note that for the highlighted Partner Company, there is also an employee that is not approved. You can tell that they are not approved because each partner company or employee is shown with an (NA) to the left of it. That would mean that a Power User must approve this.

- iv. Before approving, verify first if there is duplicate by searching the partner database. If there is a duplicate, this partner will not be approved, and the power user should disable this new partner, and for the particular file, add in the older partner type. This will prevent the system from having too many duplicates. Seek an admin or management if there is concern about some duplicates in the system.
- v. Double click on either the partner company or the employee (only if there is an NA next to one or the other)
- vi. If this is a new partner or partner employee, make sure both the Enabled and Approved check boxes are checked. If this is a duplicate and should be removed, make sure both the enabled and the approved check boxes are removed.

- vii. Click save and the partner company or partner employee has now been updated into the system.

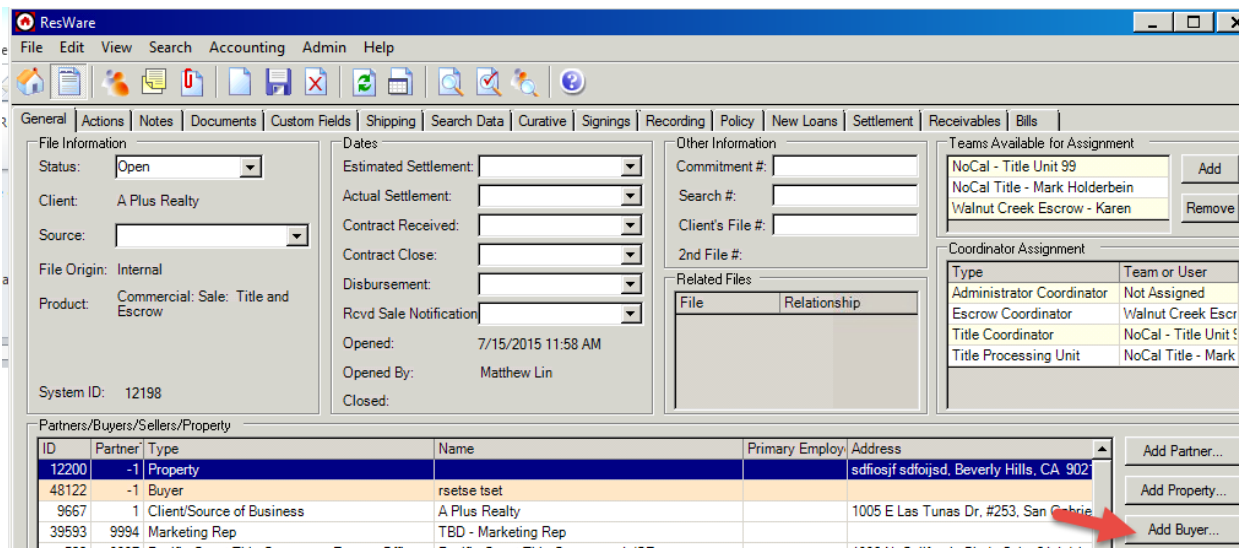

Rev. Date	Rev. No.	Page No.
2/9/2016	1.0	12

4.2 BUYERS/SELLERS

4.2.1 ADDING/REMOVING BUYER/SELLER

Adding or removing a buyer can be accomplished via the General tab. All users have the same rights.

- a. Click on the Add buyer button to add a buyer

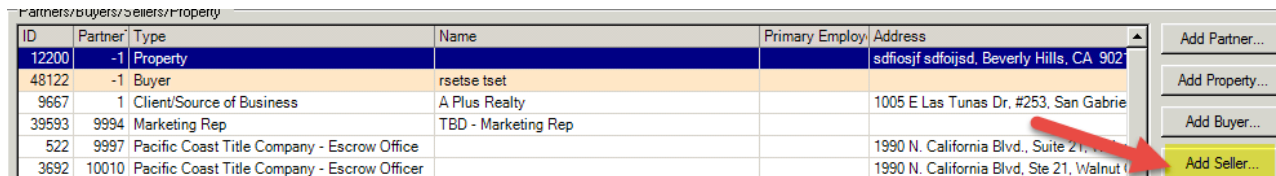

The screenshot shows the ResWare application window. The 'General' tab is selected. The 'Partners/Buyers/Sellers/Property' table at the bottom contains the following data:

ID	Partner	Type	Name	Primary Employer	Address
12200	-1	Property			sdfojsf sdfojsd, Beverly Hills, CA 902
48122	-1	Buyer	rsetse tset		
9667	1	Client/Source of Business	A Plus Realty		1005 E Las Tunas Dr, #253, San Gabrie
39593	9994	Marketing Rep	TBD - Marketing Rep		
522	9997	Pacific Coast Title Company - Escrow Office	Pacific Coast Title Company - WFE		1990 N. California Blvd, Suite 21, Waln
3692	10010	Pacific Coast Title Company - Escrow Officer			1990 N. California Blvd, Ste 21, Walnut

Buttons on the right side of the table include 'Add Partner...', 'Add Property...', 'Add Buyer...', and 'Add Seller...'.

- b. Click on add seller to add a seller to this file

This screenshot is identical to the one above, showing the same table and interface elements. A red arrow points to the 'Add Seller...' button.

Note: Husband and wife would be considered one buyer (or one seller)

- c. To remove a buyer or seller, highlight on the appropriate buyer/seller, then click remove. ResWare will prompt to verify that the buyer/seller is to be removed. **Note:** You cannot delete a buyer or seller if you have receipted any money or disbursed any money to the buyer/seller. This will require specific Admin assistance.

MANUAL: TIPS AND TRICKS (T&T)

GROUP: ESCROW

4.2.2 SIGNATURE LINES

This can be utilized in both the Seller and Buyer screens. Simply double click either the buyer or the seller from the general tab to begin

a. Follow the diagram below:

Example for Trust

Here's what my Seller screen looks like for a Trust.

If you need a 2nd signature line. Use speed code 'sigline-' in the 'signature line' box.

Speed code

sigline-

then press space bar and the 2nd signature line will pop in.

Add your 2nd trustee name in place of the [signer's name]

5.0 USING THE SEARCH FIELD

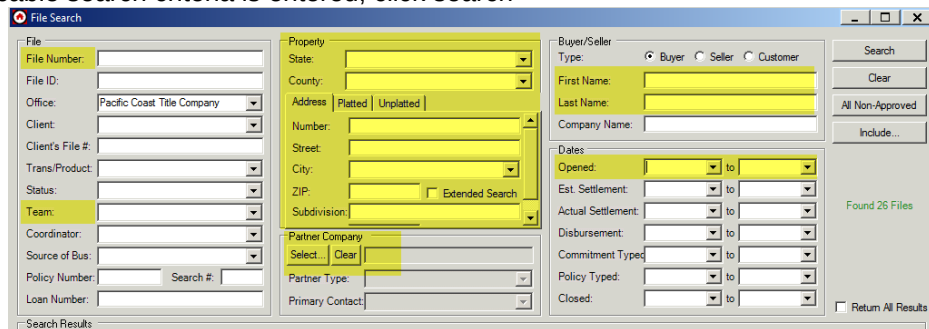

- a. Proceed to Search/Files (or press Ctrl + Shift + F)

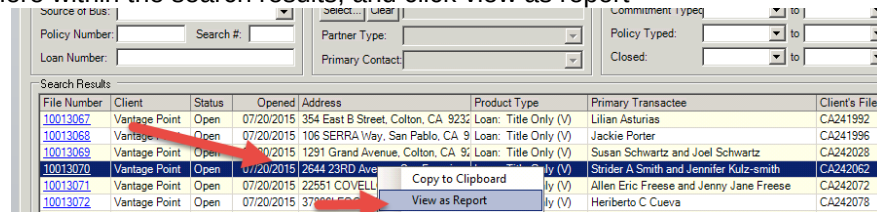

- b. There are many ways to search for files, and the ones highlighted sections that are most frequently used
- File Number (for ResWare)
 - Team (your Escrow Team can be selected)
 - Property (you can enter partial property information)
 - Buyer/Seller first and last name
 - Opened start and end dates

Note: use the % sign as a wildcard for searches. For example, if you type %Wells, the system will pull any matches that contains the word "Wells". Also note that the more information is added, the more refined search results will be yielded.

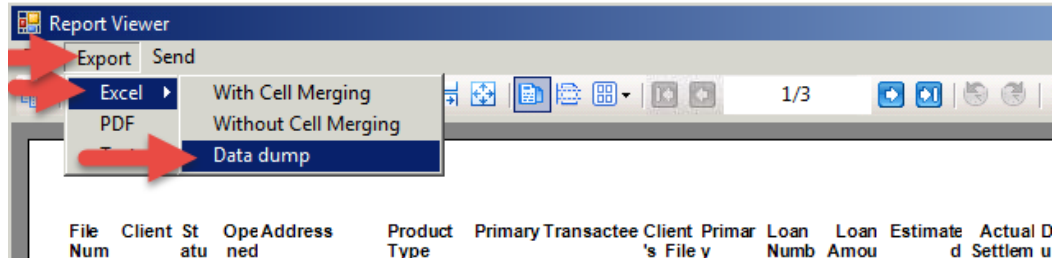

- c. Once the applicable search criteria is entered, click search

- d. Once the information is yielded, there are options to export the search criteria to an Excel report
- e. Right click anywhere within the search results, and click view as report

- f. Click the Export option
- g. Select Excel
- h. Select Data Dump. An excel form will now be available. Note that if you wanted to save the Excel, save it on your C: Drive.

Rev. Date	Rev. No.	Page No.
2/9/2016	1.0	15

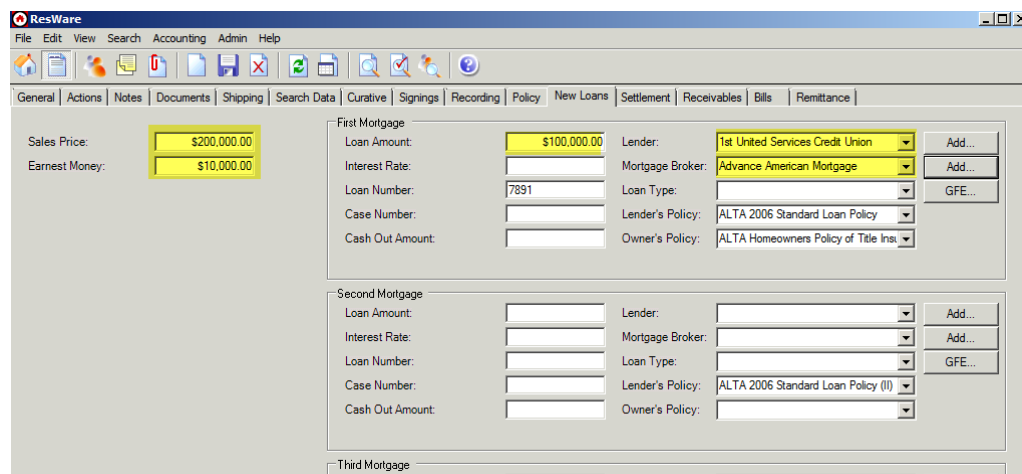

6.0 EARNEST MONEY DEPOSIT

This section covers specifics on how Earnest Money Deposit is entered in ResWare.

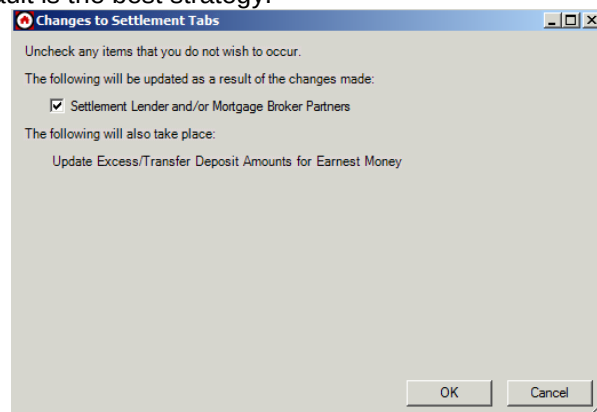

6.1 NEW LOANS TAB

- a. Proceed first to New Loans Tab
- b. Fill in the following fields, if necessary:
 - i. Sales Price (if applicable)
 - ii. Loan Amount (if applicable)
 - iii. Earnest Money
 - iv. Lender
 - v. Mortgage Broker

Note: check the FAQs section regarding specifics tied to lender and mortgage broker (if new lender/mortgage broker is missing from this field).

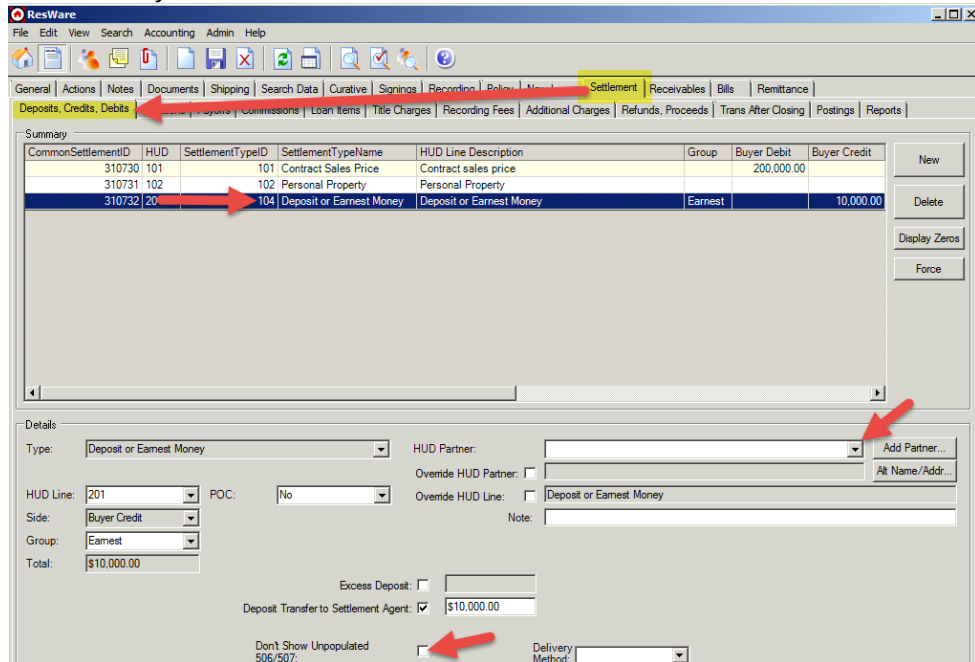

- c. Note: anytime you make a change to the Sales Price, Loan amount, and/or the earnest money, you will get a notification asking you how you want these changes to be applied to the Settlement tab. Most of the time, leaving the selections at default is the best strategy.

Rev. Date	Rev. No.	Page No.
2/9/2016	1.0	16

6.2 SETTLEMENT TAB

- a. Once all the sales price, loan amount, earnest money deposit, and/or lender/mortgage broker information has been entered into the New Loans tab screen, proceed to the Settlement tab/Deposits, Credits, Debits sub tab
- b. In the summary section of Deposits, Credits, Debits sub tab, click on the line associated with the Earnest money deposit
 - i. Hud Partner Dropdown menu: select the appropriate partner for the hud partner. This would usually consist of the Buyer
 - ii. **Check this box: Don't Show Unpopulated 506/507:** this checkbox is defaulted as unchecked, and Escrow units will have to manually check on this box. Note that if this box does not get checked, verbiage will appear on your HUD. This will require considerable effort to delete the verbiage. Thus, make sure that check box is always checked.

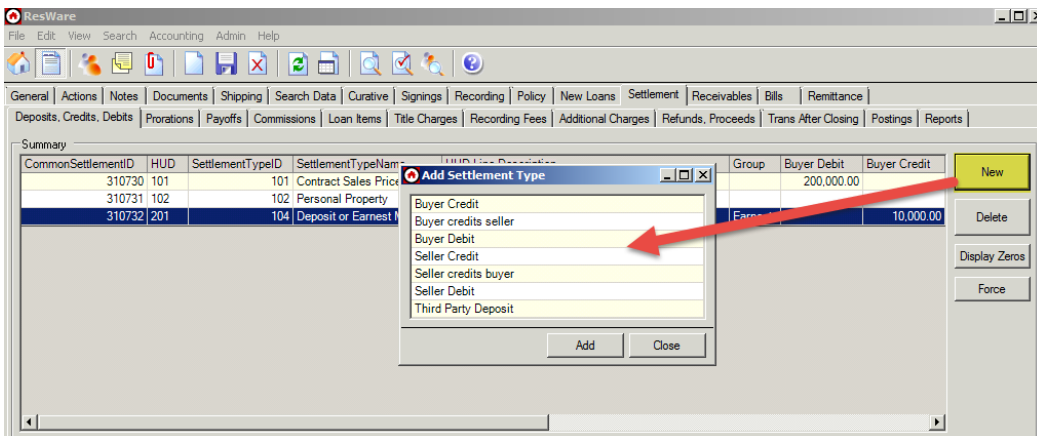

The screenshot shows the ResWare application window with the Settlement tab selected. The Summary table lists the following lines:

CommonSettlementID	HUD	SettlementTypeID	SettlementTypeName	HUD Line Description	Group	Buyer Debit	Buyer Credit	
310730	101	101	Contract Sales Price	Contract sales price		200,000.00		New
310731	102	102	Personal Property	Personal Property				Delete
310732	201	104	Deposit or Earnest Money	Deposit or Earnest Money	Earnest		10,000.00	Display Zeros

The Details section for the selected line shows:

- Type: Deposit or Earnest Money
- HUD Partner: [Dropdown]
- HUD Line: 201
- Side: Buyer Credit
- Group: Earnest
- Total: \$10,000.00
- Deposit Transfer to Settlement Agent: ☒ \$10,000.00
- Don't Show Unpopulated 506/507: ☐

- c. For any additional deposits, you must enter in Settlement first before accepting your deposits in the posting tab. Simply click on the new button to yield any additional deposits, then go to postings tab to claim those funds

The screenshot shows the ResWare application window with the Settlement tab selected. The Summary table is the same as in the previous screenshot. The 'Add Settlement Type' dialog box is open, showing a list of settlement types:

- Buyer Credit
- Buyer Debit
- Seller Credit
- Seller credits buyer
- Seller Debit
- Third Party Deposit

The 'New' button in the Summary table is highlighted with a red arrow.

7.0 EMAILS

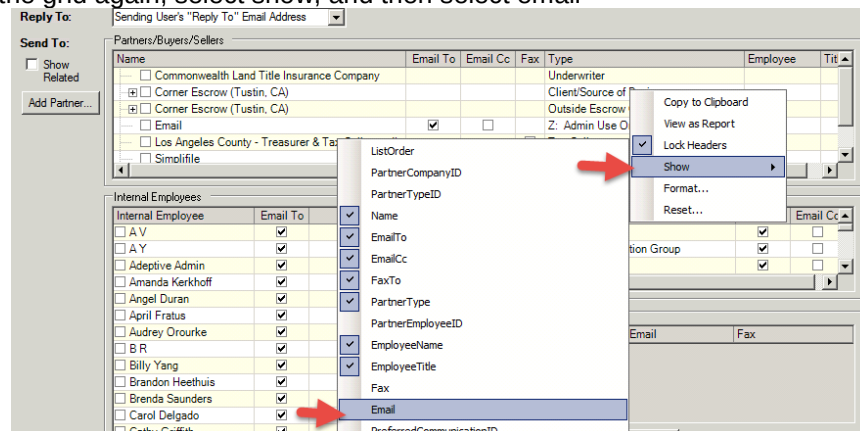

7.1 SETTING UP EMAIL HEADERS

It will be easier to start with formatting the Email screen in ResWare.

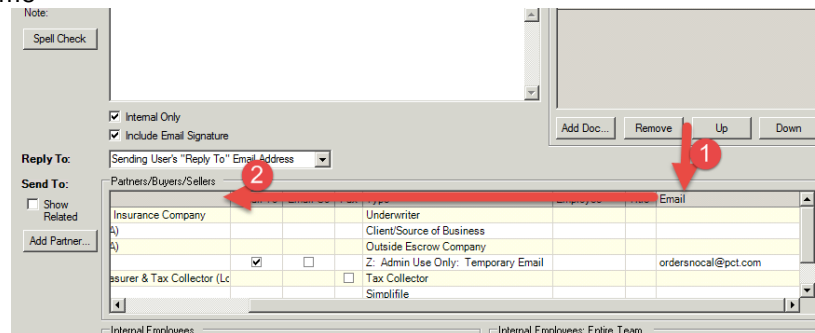

- In the Partners/Buyers/Sellers screen, right click anywhere within the grid
- Click on the Lock Headers option

- Right click within the grid again, select show, and then select email

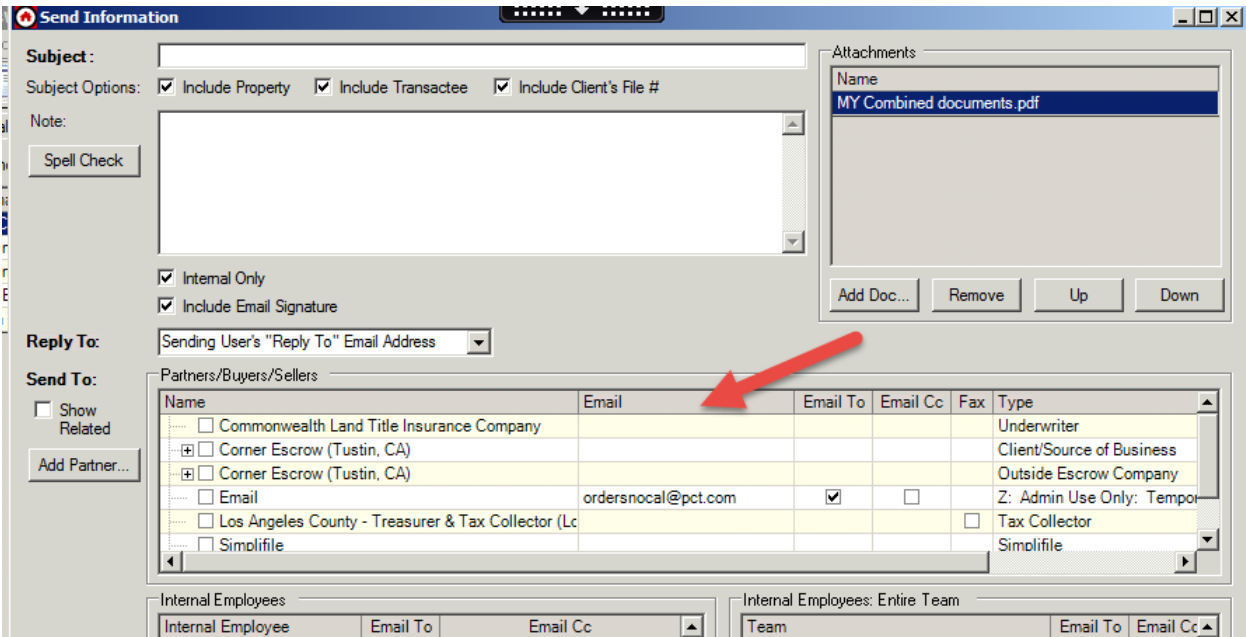

- Locate the column named "Email", left click and hold that gray column, and then drag it all the way to the left near the partner name

- The desired outcome will put the "Email" box next to the partner company name. This is critical because it will help identify which partners has an email address associated.

7.2 EMAILING TO INTERNAL TEAMS

You have the option to be able to email teams within PCT. This is located in the email section: Internal Employees: Entire Team

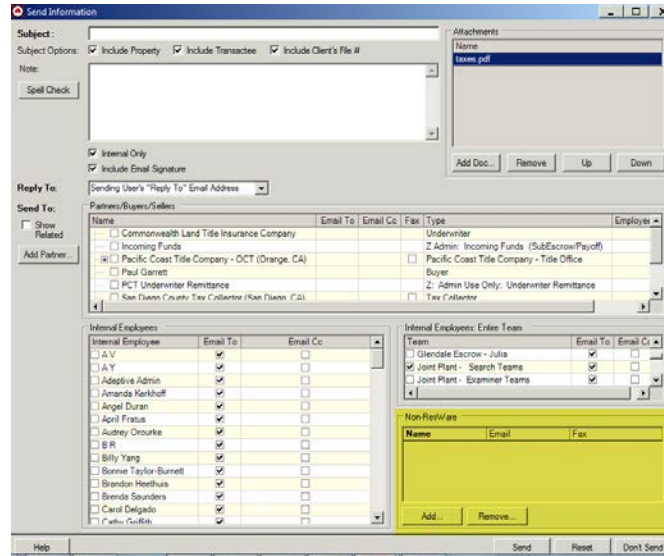

- a. Simply select any of the teams by click on the check box (on the left), and then click send
 - i. Note: The team accounts are specifically tied to the action item queues that each team member has. For the example below, anybody who has the action item queue of Joint plant-search teams, if an email is sent via the internal employees- entire team, they will all receive an email

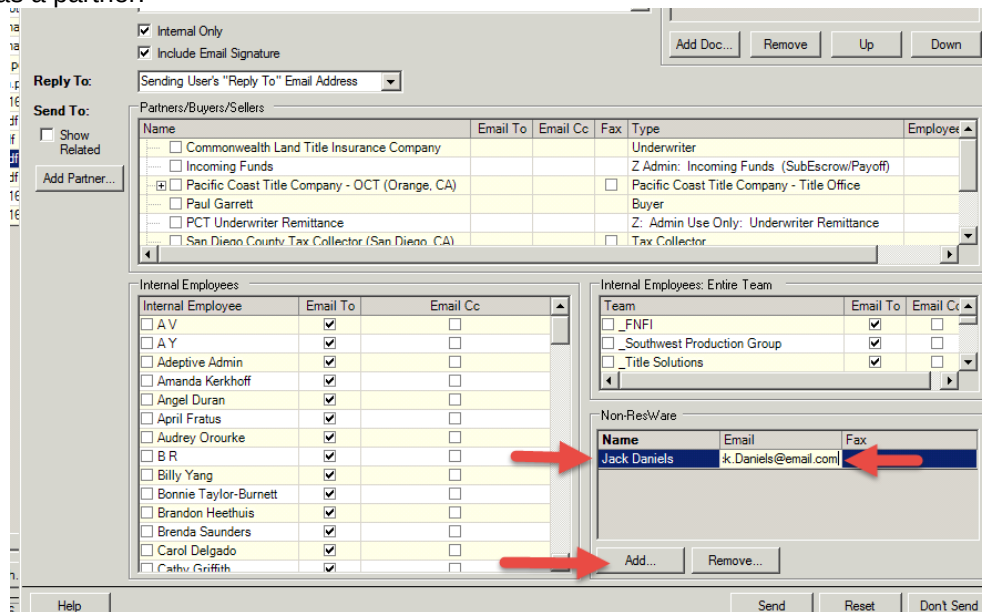

Rev. Date	Rev. No.	Page No.
2/9/2016	1.0	20

7.3 EMAILING SOMEONE NOT IN RESWARE

There will be situations where you might need to send a quick email, and the partner/email address is not in the system. This can be accomplished through the "Non-ResWare" portion

- b. In the Non ResWare section, click add
- c. Enter the name of the recipient
- d. Enter the email address of the recipient
- e. Click send. The email will now be sent to the one-time email address.
 - i. Note: Adding a new email address using the Non-ResWare option **WILL NOT** add this to the database permanently. So if you have to send another email address to this recipient, you'll have to proceed with the same steps above. It is recommended that if you do plan to send to this recipient frequently, to add them in as a partner.

8.0 TRANSACTIONS AFTER CLOSING

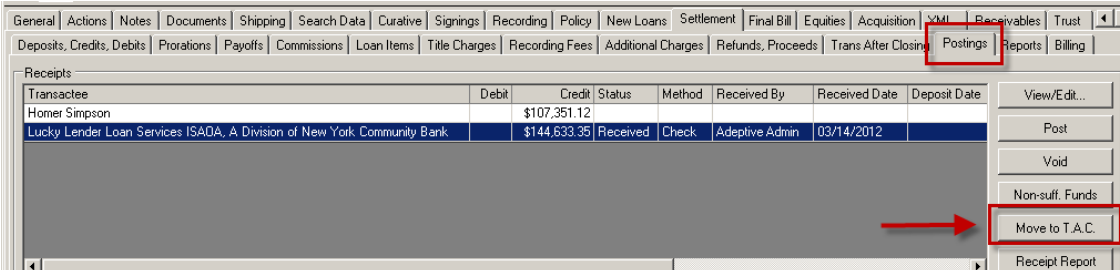

There are going to be moments when you may require that a disbursement or receipt may need to be adjusted, or perhaps even a fee is not to be shown on the HUD. The Transactions after Closing option can facilitate this. This can be found in the Settlement tab/Transactions after closing tab. Please note though that this section is very complicated and should not be done unless absolutely certain that a change is necessary. Transactions after closing should only be used as a last resort, and other options should always be considered first.

Adeptive has provided detailed instructions for how to move a receipt to TAC and How to Move a Disbursement to TAC. Click below icon(s) to open the PDF instructions.

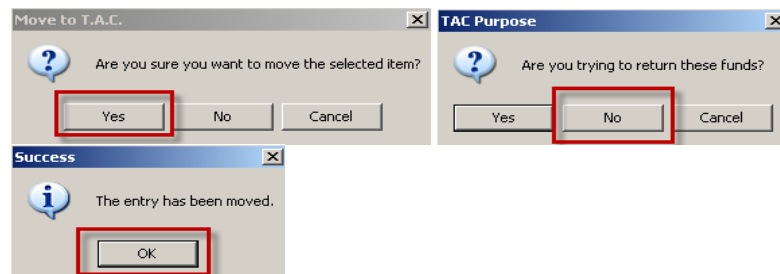

Move a Posted Receipt to Transactions After Closing

PURPOSE: After a Receipt has been posted, the HUD lines used to create the item can no longer be modified. Users with the role “Settlement: Move Posting to Transactions After Close” enabled can unlock the affected HUD lines by moving the posted receipt to the Transactions After Closing Tab (T.A.C.). This will unlock the HUD lines for revisions.

- Unlock the affected HUD lines by moving the posted receipt to the Transactions After Closing Tab.
- o Select the item from the list and click the **Move to T.A.C.** button.

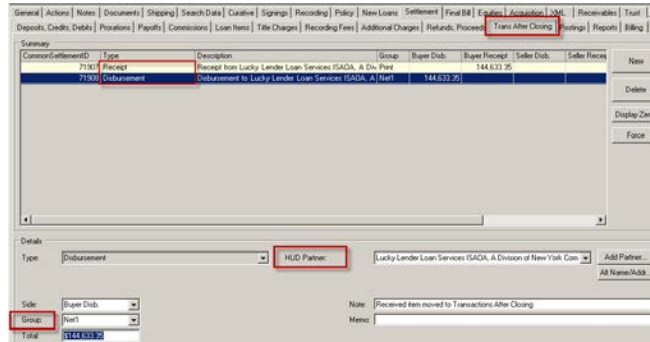

- o Click the **Yes button** to confirm the move to T.A.C.
- o Click the **No button** when you receive the pop up question “Are you trying to return these funds?” For this scenario we are not returning the funds; we are just unlocking the HUD lines for modification.
- o Click the **Ok button** to complete the move.

Rev. Date	Rev. No.	Page No.
2/9/2016	1.0	22

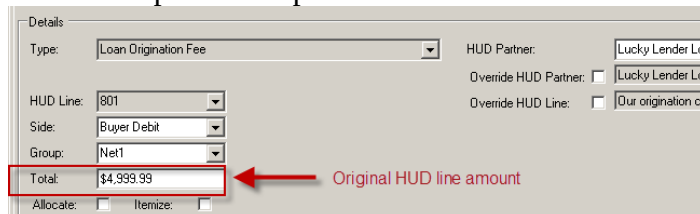

Moving the Posted Receipt creates two lines on the Transactions After Closing Tab; a Receipt and a Disbursement.

- Do not delete either line! The Transaction After Closing Tab must be balanced or the Postings Tab will be out of balance.
- On the Transactions After Closing Tab, confirm the Group and HUD Partner matches the Group and HUD Partner from the original HUD line.

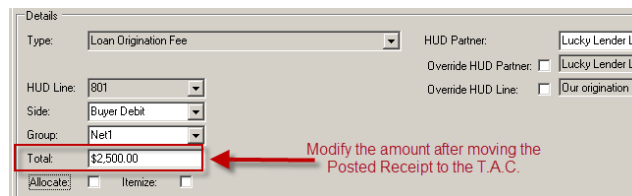

The screenshot shows the 'Transactions After Closing' window. The 'Group' field is set to 'Net1' and the 'HUD Partner' is 'Lucky Lender Loan Services ISADA, A Division of New York Community Bank'. The 'Total' is \$144,633.35.

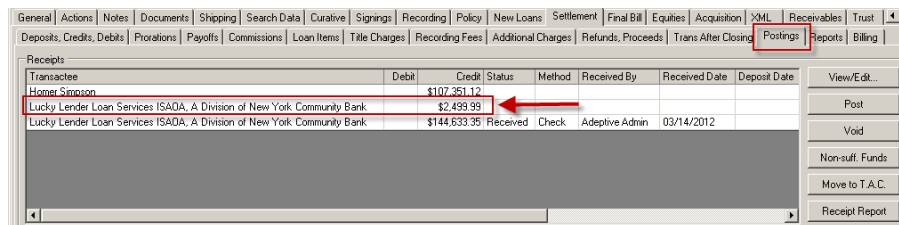

- The HUD lines are now unlocked and open for modification.
 - o As the HUD lines are modified, ResWare will re-calculate and create a new anticipated receipt or disbursement as needed.

The screenshot shows the 'HUD Line' details window. The 'Total' field is highlighted with a red box and an arrow pointing to it with the text 'Original HUD line amount'.

The screenshot shows the 'HUD Line' details window. The 'Total' field is highlighted with a red box and an arrow pointing to it with the text 'Modify the amount after moving the Posted Receipt to the T.A.C.'.

The screenshot shows the 'Postings' window. The 'Total' field is highlighted with a red box and an arrow pointing to it with the text 'Original HUD line amount'.

Move a Disbursement to Transactions After Closing

PURPOSE: After an item has been disbursed, the HUD lines used to create the item can no longer be modified. Users with the role “Settlement: Move Posting to Transactions After Close” enabled can unlock the affected HUD lines by moving the disbursed item to the Transactions After Closing Tab (T.A.C.). This will unlock the HUD lines for revisions.

Unlock the affected HUD lines by moving the disbursed item to the Transactions After Closing Tab.

- o Select the item from the list and click the Move to T.A.C. button.

9.0 (TRANSACTIONS AFTER CLOSING) TAC ON ESCROW FEE TICKET PROCESS

Sometimes the Escrow Fee ticket must be revised, either of error or correction from our clients. While there are many scenarios that could occur, this procedure will provide a basic idea of how TAC can be accomplished.

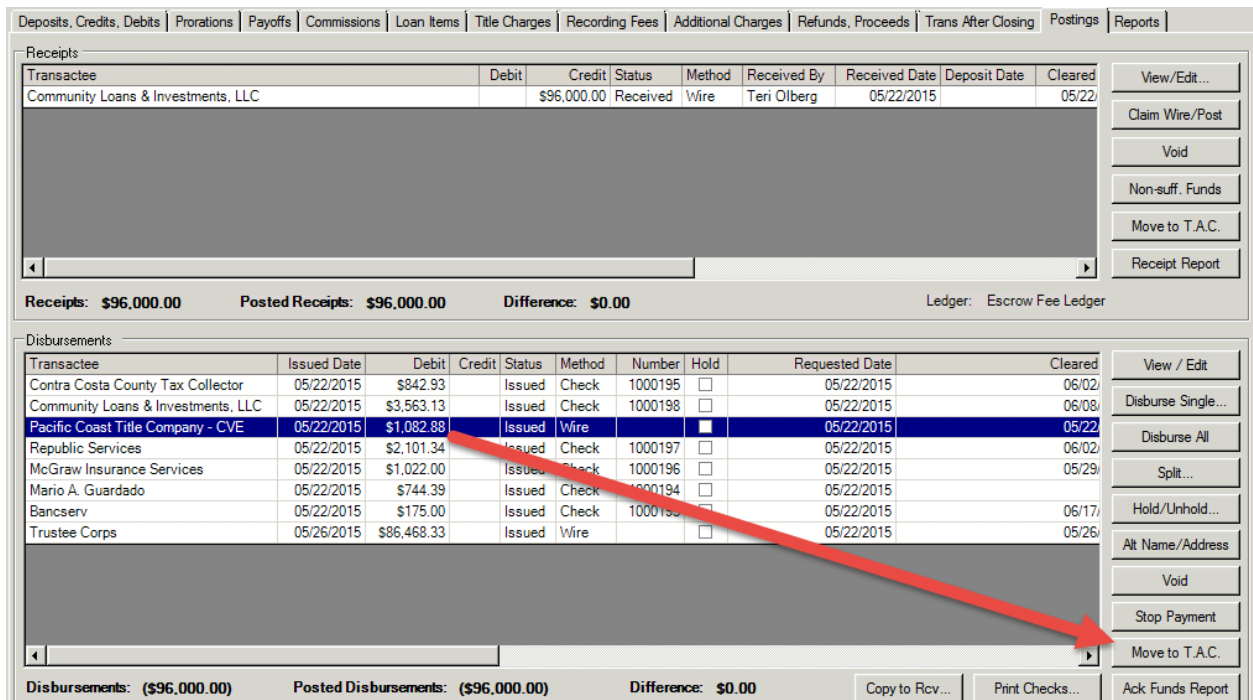

Before proceeding with TAC, first consider the following:

- Has the amount already been wired out or is still pending? If still pending, or the wire has not been mark reviewed, or mark initiated, you can get the wire voided. By voiding the wire promptly, you can still make full changes to the Escrow Fee ticket.
- Make sure you are not doing a TAC on a file that already has TAC done. Once you put something on TAC, it becomes complicated to do TAC on the same Escrow Ticket again.

9.1 TAC PROCESS FOR ESCROW FEE TICKET

In this example, we have an Overnight delivery fee of \$41.88, but let's say we made an error and the delivery fee should have and needs to be corrected to \$45.00. Here are the following steps:

- Highlight the Escrow Fee ticket
- In the Disbursements section, click on Move to T.A.C.

The screenshot displays the Pacific Coast Title Company software interface. The top navigation bar includes tabs for Deposits, Credits, Debits, Prorations, Payoffs, Commissions, Loan Items, Title Charges, Recording Fees, Additional Charges, Refunds, Proceeds, Trans After Closing, Postings, and Reports. The main window is divided into two sections: Receipts and Disbursements.

Receipts Section:

Transactee	Debit	Credit	Status	Method	Received By	Received Date	Deposit Date	Cleared
Community Loans & Investments, LLC		\$96,000.00	Received	Wire	Teri Olberg	05/22/2015		05/22/2015

Summary: Receipts: \$96,000.00, Posted Receipts: \$96,000.00, Difference: \$0.00, Ledger: Escrow Fee Ledger

Disbursements Section:

9.2 TAC ON ESCROW FEE TICKET - FAQs

- a. What happens if the amount corrected is less than the original amount?
- i. So here is an example where the delivery fee is \$41.88, but the amount should really be \$35. Once you do TAC, and update the amount to reflect less than the original, ResWare will build an anticipated receipt from **PCT ESCROW**. The reason why this occurs is because since the original amount is higher than the actual amount, it means that we overpaid ourselves on the original fee ticket. Therefore, you need to talk to management/accounting to pay off that pending amount. See screenshot below (PCT owes \$6.88). The suggestion is to inform management and accounting to disburse a check of that amount. The money will be coming from PCT's operating account.

11.0 WIRES

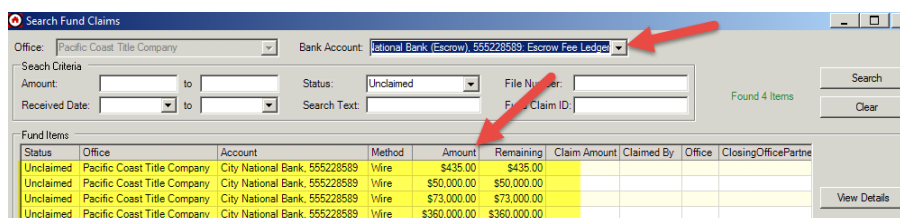

11.1 CHECKING THE WIRE BOARD IN RESWARE

- a. To check in ResWare for incoming wires, proceed to Accounting/Search Fund Claims

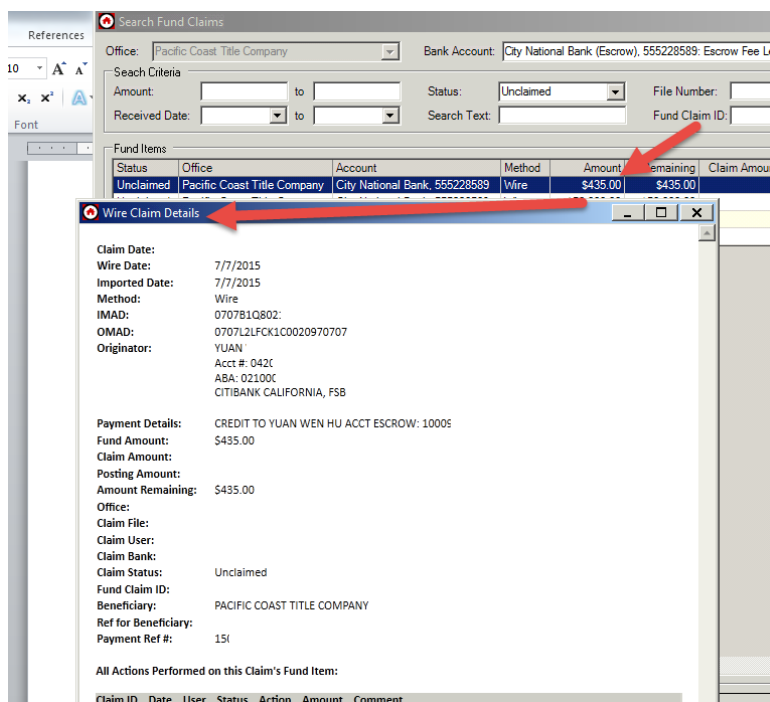

- b. Bank Account dropdown: Select 555228589: Escrow

- c. Once selected, the system will show any available unclaimed wires

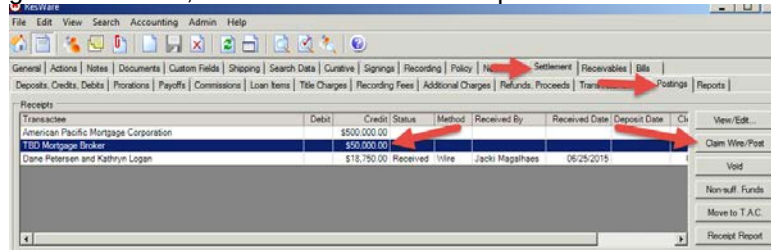

- d. Double click on a specific wire to reveal more detailed information.

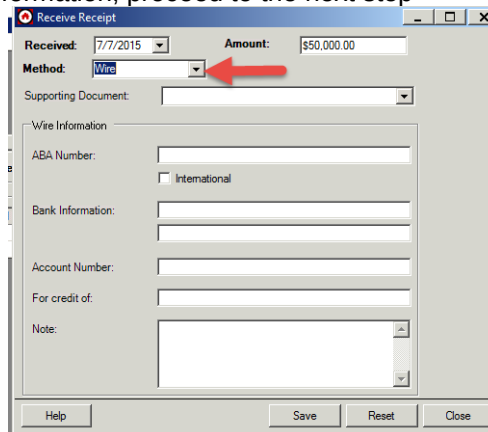

Rev. Date	Rev. No.	Page No.
2/9/2016	1.0	32

11.2 HOW TO CLAIM A WIRE

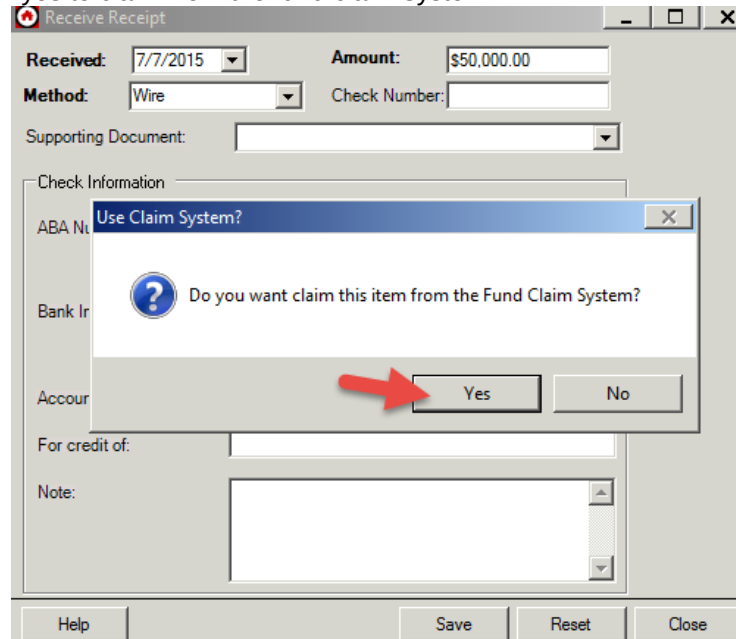

- a. An anticipated receipt must first be created for the amount to be claimed. For this example, the anticipated wire is \$50,000. Highlight the amount, and then click claim wire/post. Note:

- b. Select Wire. Note: If you were to claim a check, simply leave the method dropdown to check, and then click save. For additional wire claim information, proceed to the next step

- c. A menu will populate prompting if the wire should be claimed from the fund claim system (aka Citi National Bank wire board). Click yes to claim from the fund claim system

Rev. Date	Rev. No.	Page No.
2/9/2016	1.0	33

MANUAL: TIPS AND TRICKS (T&T)

GROUP: ESCROW

- d. ResWare will populate the possible matches to the anticipated wire, within the range of a couple thousand dollars. For example, the anticipated wire was \$50,000 and ResWare will look for wires that are between \$48,500 to \$51,500.
- e. If there are multiple matches, make sure to select the correct one. In this example, there was only one match. Left click on the wire amount match
- f. Click Claim wire. A claim item menu will populate
 - i. Optional: When the claim item menu populates, select your appropriate closing office, and add comments, if available.
- g. Click save. The wire is now claimed, and can be seen from the postings tab.

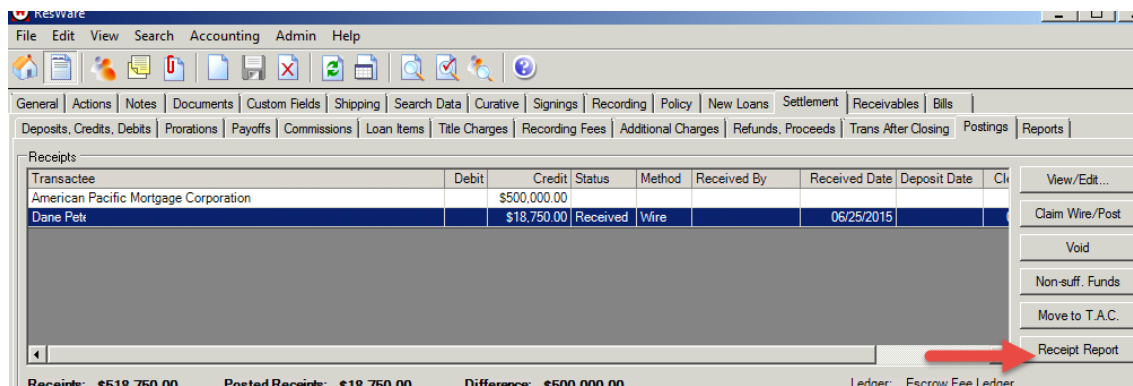

A screenshot of the 'Fund Claim Search' application window. The window has a search criteria section at the top with fields for Amount (\$48,500.00 to \$51,500.00), Status (Unclaimed), File Number, Received Date, Search Text, and Fund Claim ID. A 'Search' button is on the right. Below the search criteria is a table of 'Fund Items' with columns: Status, Office, Account, Method, File Number, Comments, Wire Date, Imported, Amount, and Remaining. One item is listed: Unclaimed, Pacific Coast Title Company, City National Bank, 555228589, Wire, 7/7/2015, 07/07/2015 01:26 PM, \$50,000.00, \$50,000.00. To the right of the table are buttons: 'Claim Wire', 'View Details', and 'Add Fund Item'. A 'Claim Item' dialog box is open in the center, displaying details for the selected wire: Wire Amount: \$50,000.00, Remaining Amount: \$50,000.00, Posting Amount: \$50,000.00, Received Date: 7/7/2015, Federal Ref #: 07071Q34G1C000193, Beneficiary: PACIFIC COAST TITLE COMPANY, Sending Bank: NIEL R PETERSEN, Acct #: 1112441, Broker/Lender Info, Borrower Info: ESCROW NO 10011495-CVE-NC, Payment Ref #: 150707006476, Additional Info, Closing Office (dropdown), and Comment (text area). At the bottom of the dialog are checkboxes for 'Partial Claim' and 'Partial Claim Amount', and buttons for 'Help', 'Save' (highlighted with a red arrow), 'Reset', and 'Close'.

12.0 PRINTING CHECKS

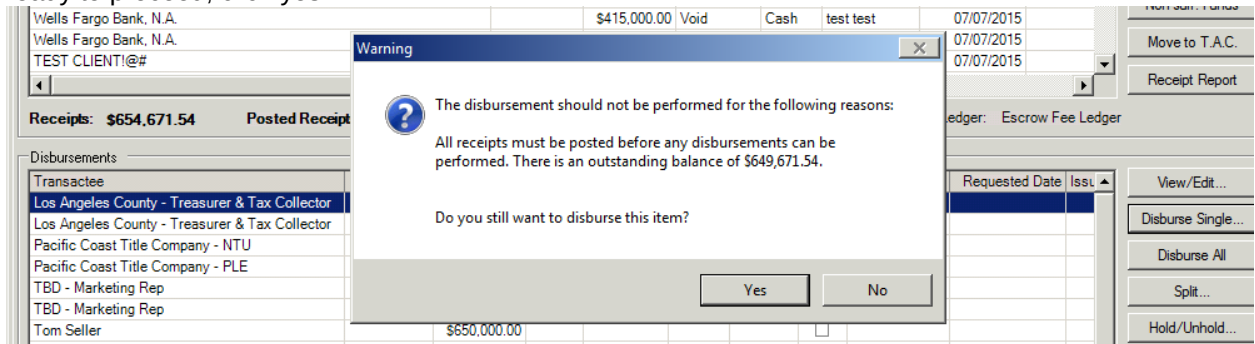

Before printing checks, make sure the following items are considered:

- i. Have you receipted in money? You'll need to receipt in money before you can cut any checks
 - ii. Is your file in balance? The anticipated receipts needs to equal the anticipated disbursements
 - iii. Do you have permission to cut checks? Not every user has access to cut checks
 - iv. Make sure the check printer is on
 - v. Make sure there are adequate blank checks in the printer
 - vi. Make sure the toner is still in good condition. If there are issues with the toner or printer, contact IT.
- a. Click on the applicable disbursement, and click disburse single

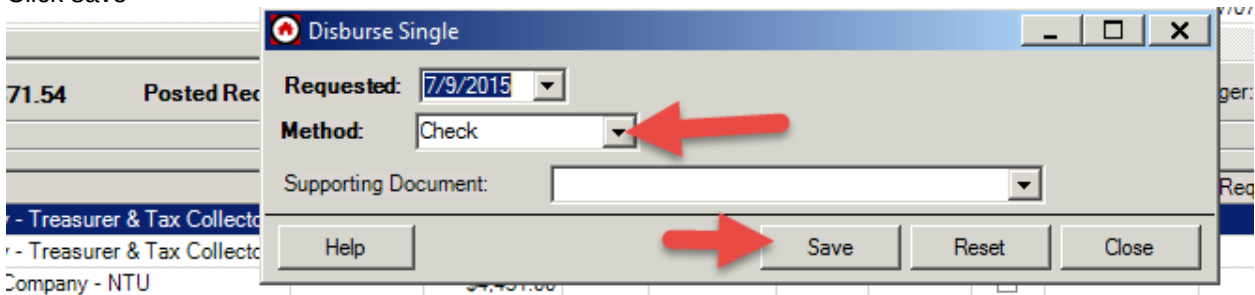

The screenshot shows the software interface with tabs for General, Actions, Notes, Documents, Shipping, Search Data, Curative, Signings, Recording, Policy, New Loans, Settlement, Receivables, Bills, Deposits, Credits, Debits, Prorations, Payoffs, Commissions, Loan Items, Title Charges, Recording Fees, Additional Charges, Refunds, Proceeds, Trans After Closing, Postings, and Reports. The Receipts section is active, showing a table with columns: Transactee, Debit, Credit, Status, Method, Received By, Received Date, and Deposit Di. The Disbursements section is also visible, showing a table with columns: Transactee, Issued Date, Debit, Credit, Status, Method, Number, Hold, Requested By, Requested Date, and Issu. A red arrow points from the 'Disburse Single...' button in the Disbursements section to the 'Disburse Single...' button in the Receipts section.

- b. You may receive some warnings populate. Make sure to address these issues before proceeding. If/when ready to proceed, click yes

The screenshot shows a warning dialog box with a question mark icon. The text inside the dialog box reads: "The disbursement should not be performed for the following reasons: All receipts must be posted before any disbursements can be performed. There is an outstanding balance of \$649,671.54. Do you still want to disburse this item?" There are "Yes" and "No" buttons at the bottom of the dialog box.

- c. Method dropdown: Select Check
- d. Click save

The screenshot shows the "Disburse Single" dialog box. It has fields for "Requested:" (7/9/2015), "Method:" (Check), and "Supporting Document:". There are buttons for "Help", "Save", "Reset", and "Close". A red arrow points to the "Method:" dropdown, and another red arrow points to the "Save" button.

13.0 DOCUMENTS TAB BASICS

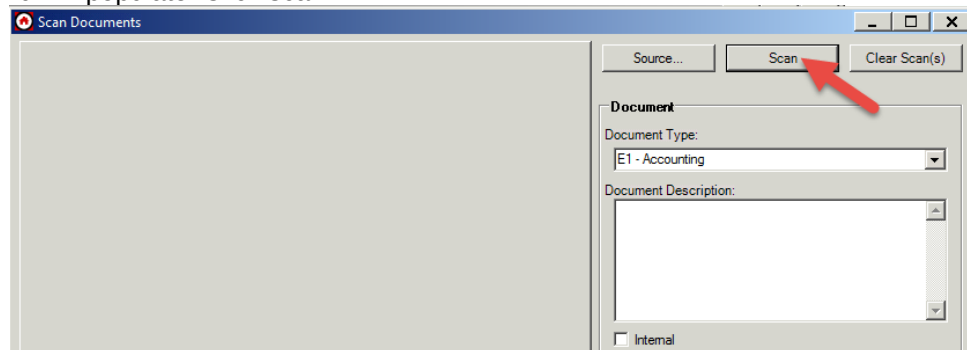

13.1 SCANNING

Note: depending on the scanner that you are using, some of the program features will be different. This will be mentioned in the manual

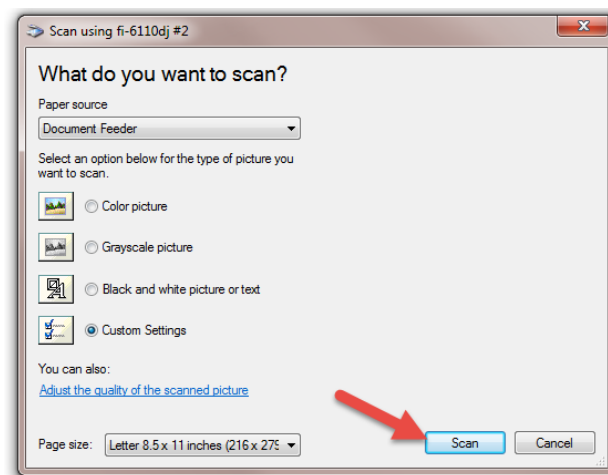

- Access specific file in ResWare, and click on Documents tab
- In the Documents tab, click on the Scan button

- The Scan menu will populate. Click scan

- An additional scan menu will populate. Please note that this screen may appear differently than your screen. Click scan.

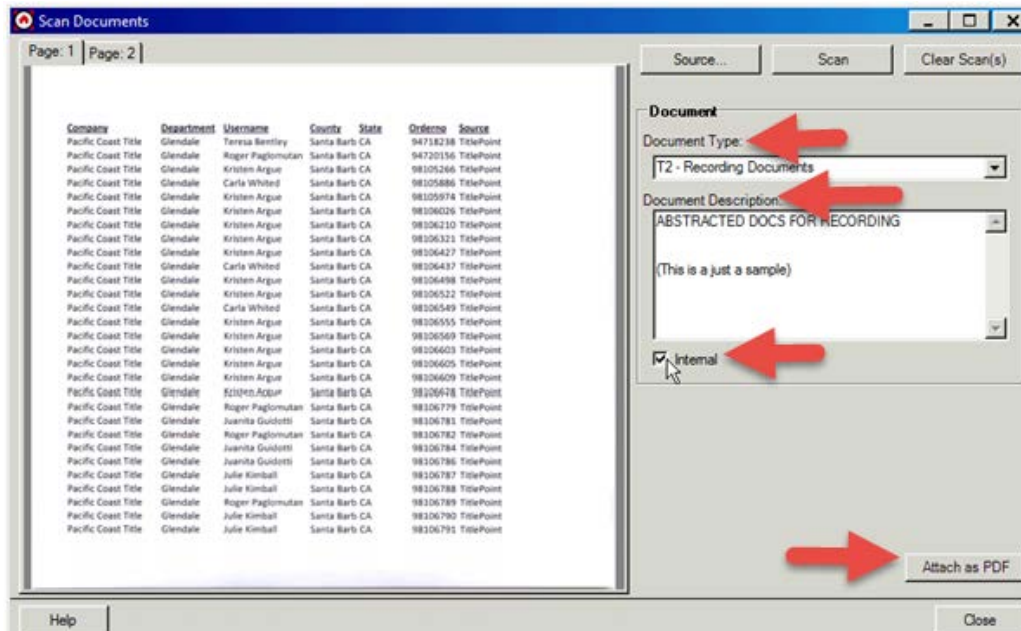

Rev. Date	Rev. No.	Page No.
2/9/2016	1.0	40

MANUAL: TIPS AND TRICKS (T&T)

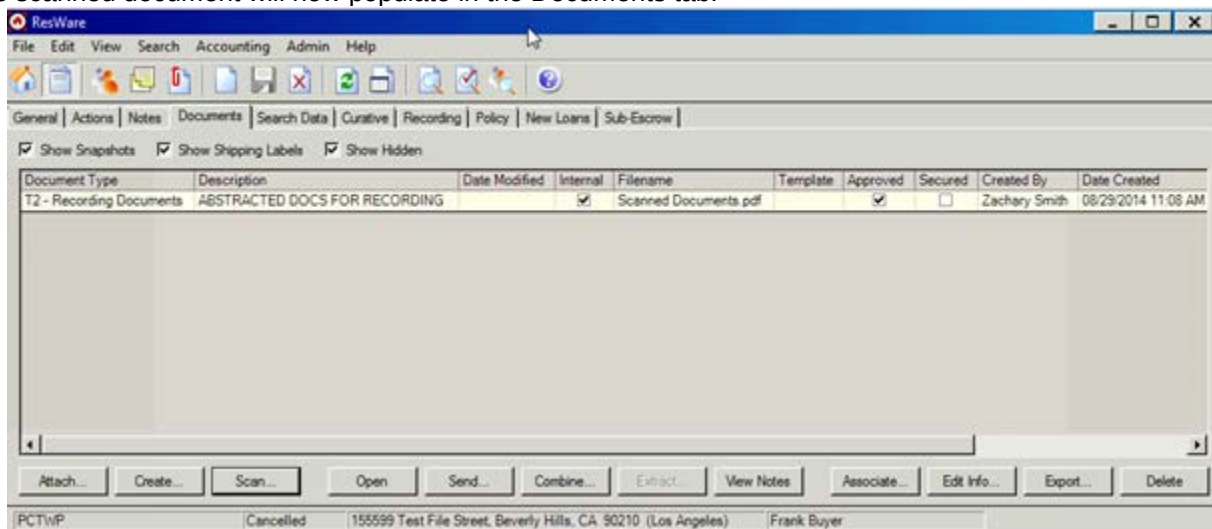

GROUP: ESCROW

- e. Once the Scanning is complete, you will be able to preview the scan results on the left side of the scan documents screen.
- f. Document type: Select appropriate document type. Refer to procedure: **Naming Conventions** to determine specific Document type
- g. Key in a document description. Refer to procedure: **Naming Conventions** to determine specific Document Description
- h. Click on the Internal button.
- i. Click Attach as PDF

- j. The scanned document will now populate in the Documents tab.

2/9/2016	1.0	41

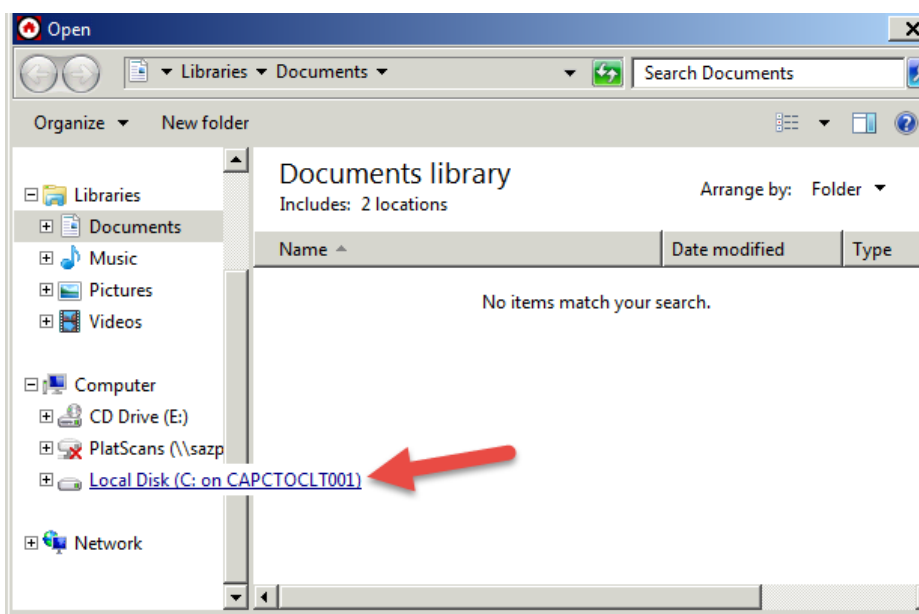

13.2 ATTACHING DOCUMENTS TO RESWARE

Save all your documents in a ResWare folder in C Drive. Once you create a ResWare folder in C drive, you may save a shortcut folder to your desktop, and then you will be able to drag documents from your outlook or from your computer to the ResWare shortcut folder. Consult an admin or Power User for set up on a ResWare folder.

- a. Click the Attach button

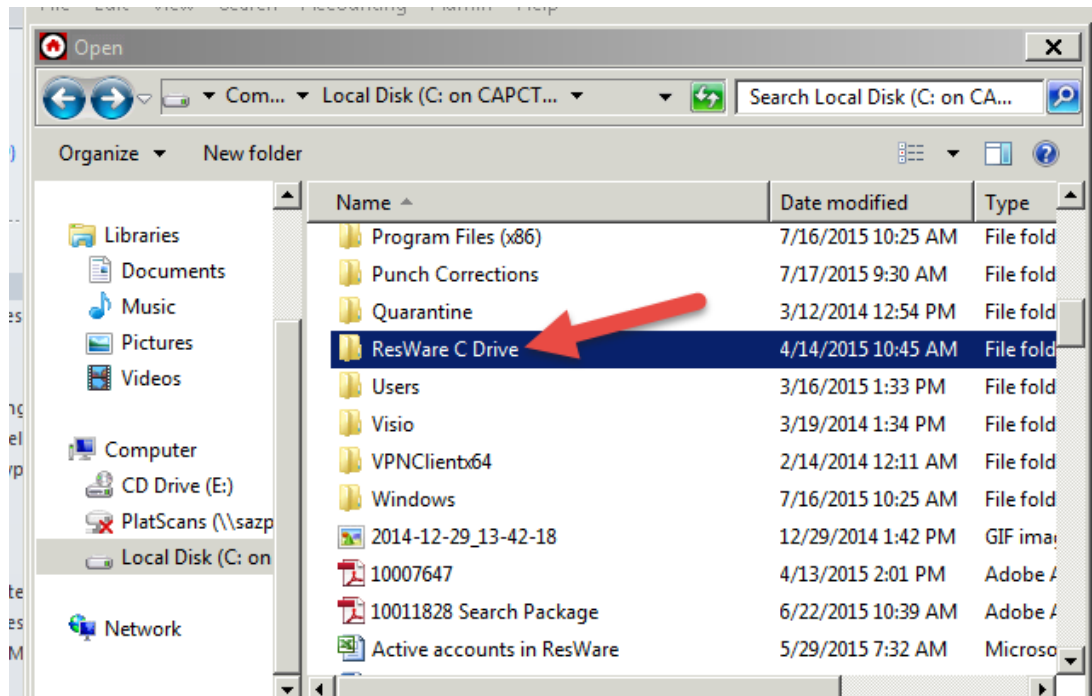

- b. Click on Local Disk C:

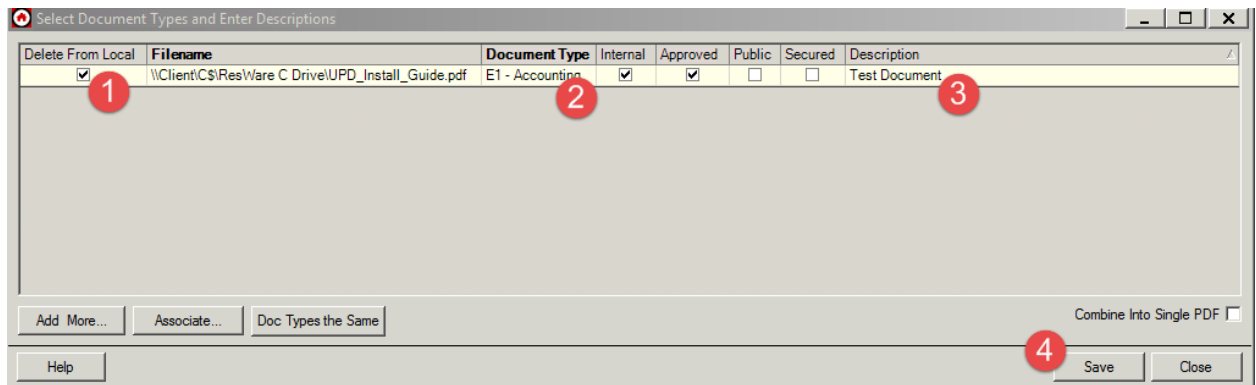

Rev. Date	Rev. No.	Page No.
2/9/2016	1.0	42

- c. Locate and open the ResWare folder

- d. Select the appropriate document(s) and click open. Note: Hold the CTRL button to enable selection of multiple documents.
- e. A ResWare attachment menu will populate. Proceed with the following steps:
- Delete From Local option: Leave the box checked if you would like ResWare to delete the original document from your C drive. After saving, ResWare will save a copy of the document to your documents tab. Most would prefer to leave this box checked to reduce clutter from the ResWare folder
 - Document type: Select appropriate document type
 - Description: Enter a description for the document
 - Click save

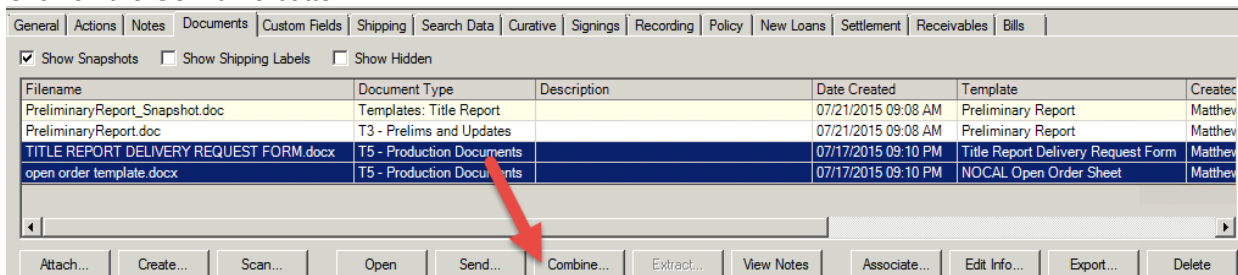

Note: If you have more than one document that you are attaching, and would like to have ResWare combine the separate documents into one document, there is a checkbox in this menu called "combine into single pdf"

Rev. Date	Rev. No.	Page No.
2/9/2016	1.0	43

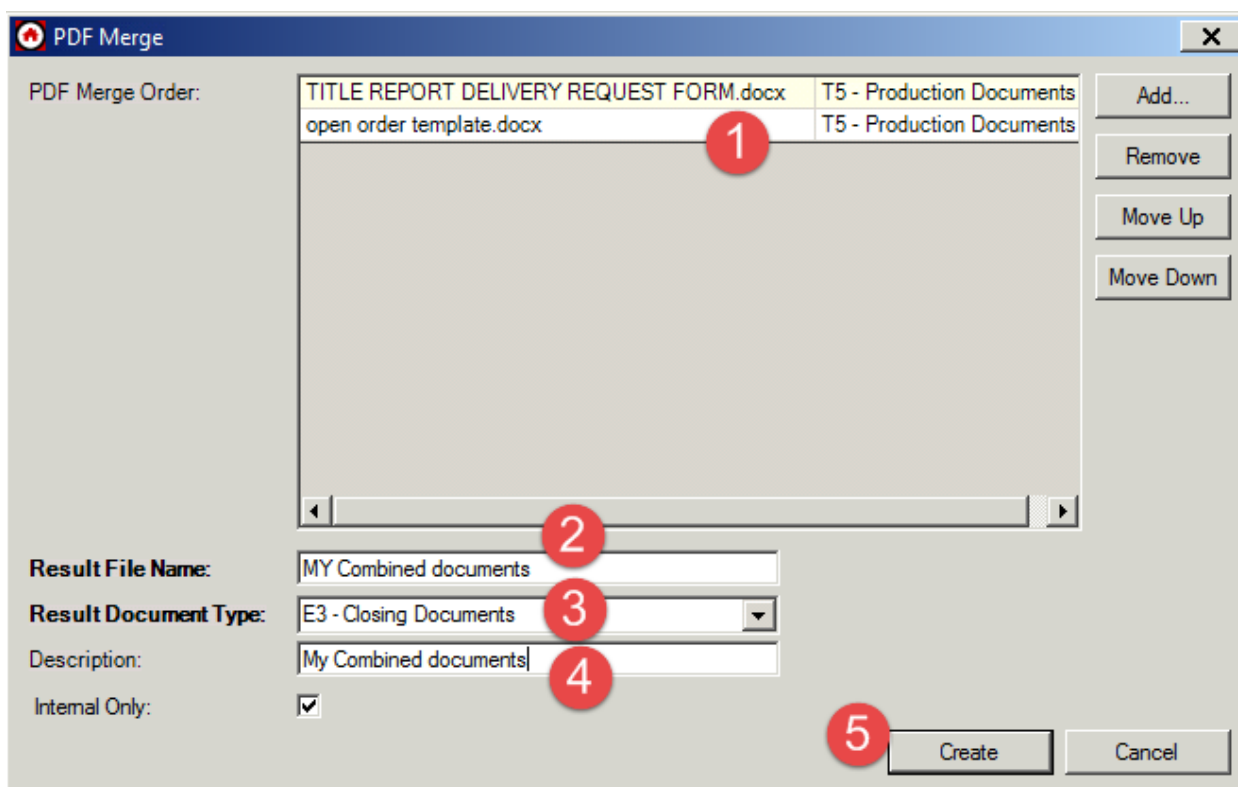

13.3 COMBINING DOCUMENTS

- Using the CTRL button, select all applicable documents in ResWare that you would like to combine
- Click on the **Combine** button

- You can add, remove, move up, or move the documents down
- Result file name:** Provide a new name for the combined documents
- Result Document type:** From the dropdown, select the appropriate document type
- Description:** Type in an appropriate description
- Click create.

Note: Combining the documents will not modify any of your individual documents. They will remain intact.

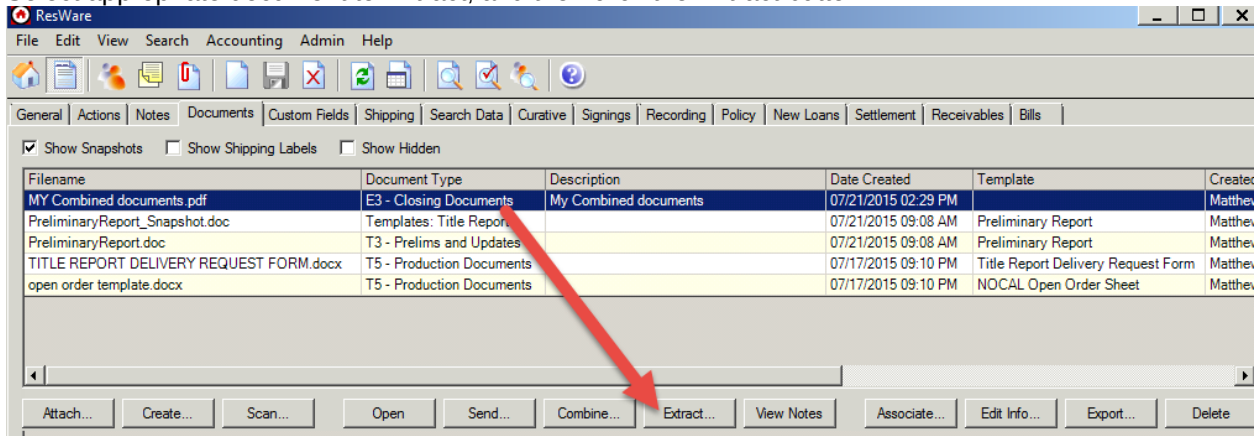

Rev. Date	Rev. No.	Page No.
2/9/2016	1.0	44

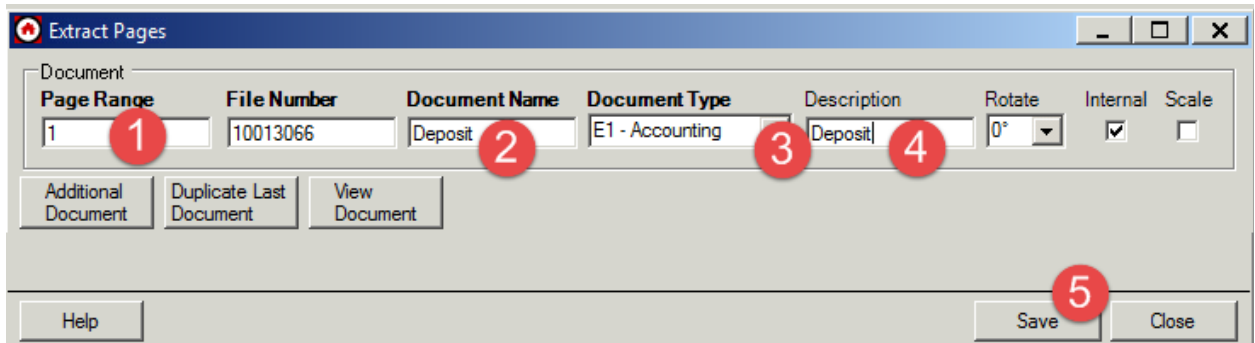

13.4 EXTRACTING DOCUMENTS

Utilize this function to extract specific pages of a larger document. This is good to use when you have a 50 document, and you only need page 5 of 50, or even page 5 through 10, etc.

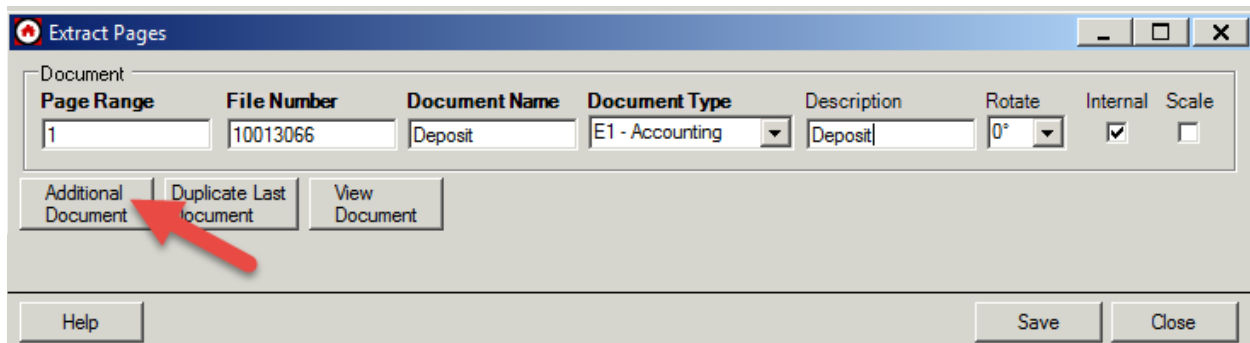

- a. Select appropriate document to Extract, and then click the Extract button

- b. Enter the page range. For example, page 1, or page 1-3, or page 1,3,5-7,9, etc
 c. Document name: Enter appropriate document name
 d. Document type dropdown: Select appropriate dropdown
 e. Description: Enter appropriate description
 f. Click Save

Note: Extracting the document will not modify the original document. Also, you may extract multiple separate pages by clicking on the additional document button.

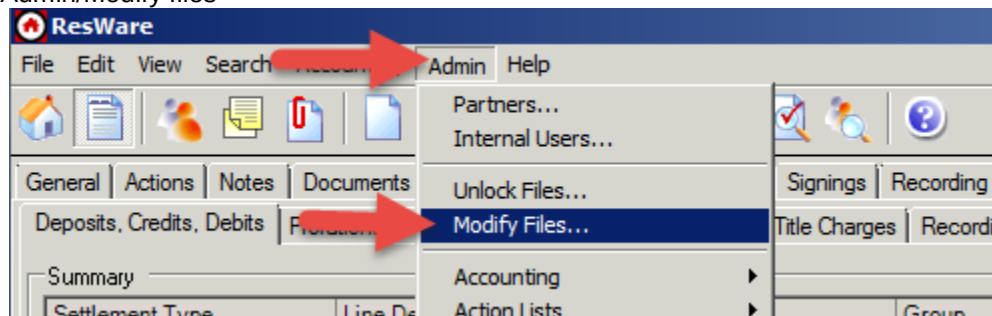

Rev. Date	Rev. No.	Page No.
2/9/2016	1.0	45

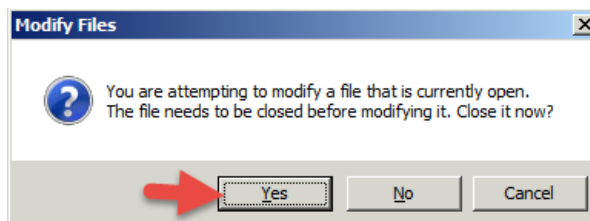

14.0 HOW TO CHANGE A FILE THAT WAS OPENED AS CD TO 2010 HUD OR VICE VERSA

All Escrow will have the ability to switch from CD to 2010 HUD, or from 2010 HUD to CD if needed using the **Admin/Modify** option. Note: Make sure that you have exited the file before using Admin/Modify

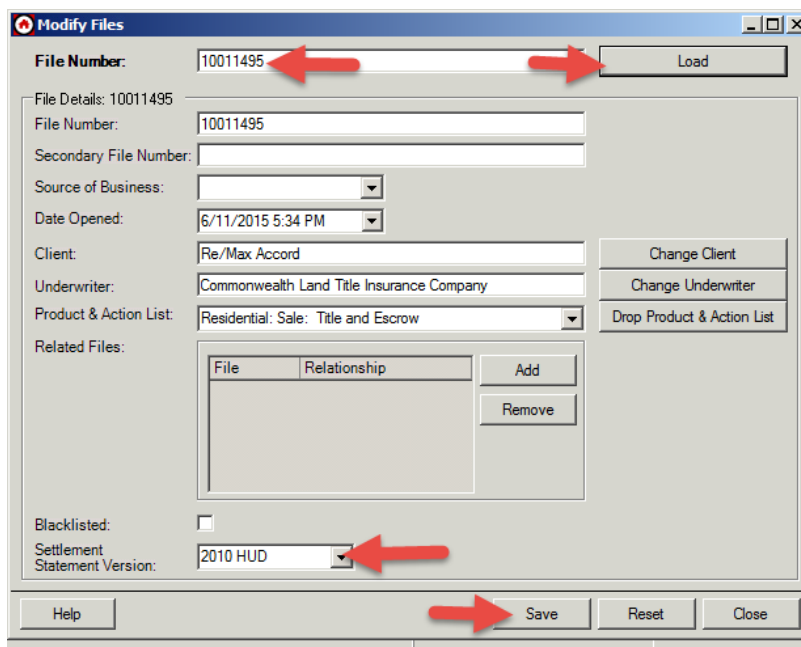

- a. Go to Admin/Modify files

- b. Enter the file number and click Load. Note: If you did not exit the file, you will get another popup that asks if you want to close the file first before modifying. Click yes, unless it is someone else that is using that file at that time.

- c. In the settlement statement version you can change from CD to 2010 HUD and vice versa.
 d. Click save. The settlement version (2010 HUD to CD, or CD to 2010 HUD) is complete.

Rev. Date	Rev. No.	Page No.
2/9/2016	1.0	46

15.0 INVOICING

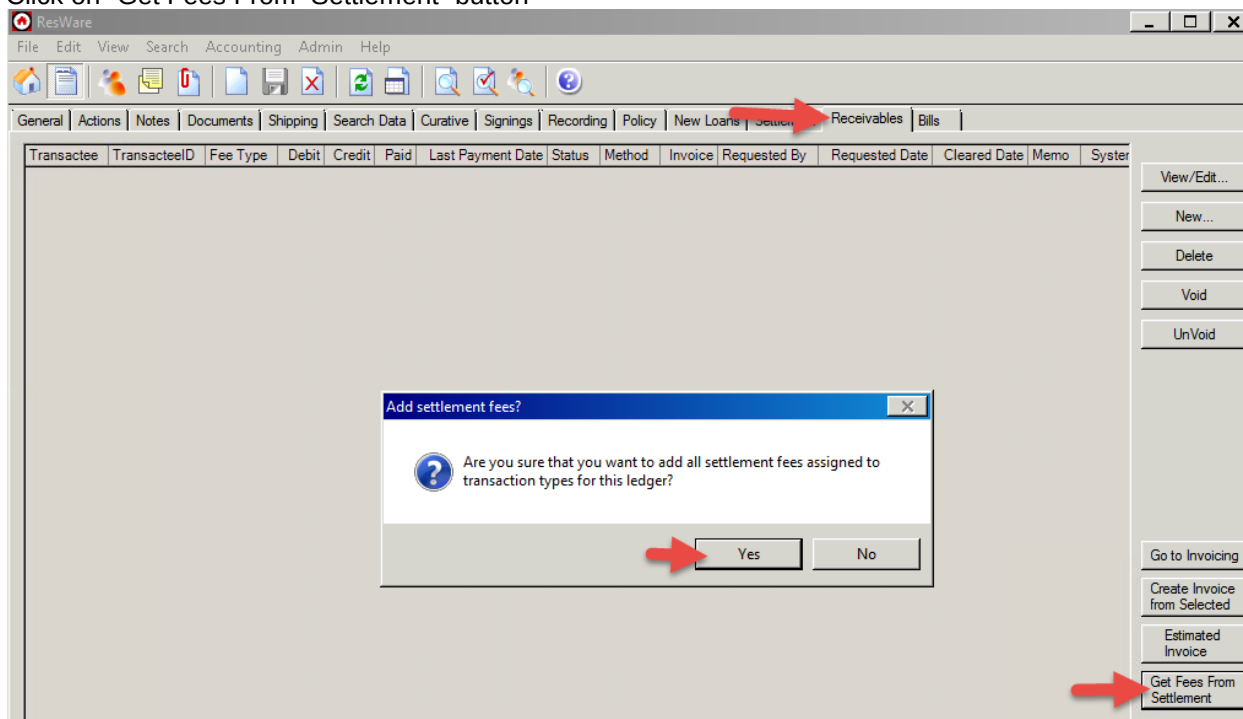

This procedure will cover the steps required for Invoicing in ResWare. Below are the key steps required by both Escrow and Accounting:

- Escrow will build their fees out in their Settlement tabs like they normally do.
- Escrow will proceed to Receivables tab to build out an Invoice
- Escrow will proceed to Settlement/Postings and put the Fee ticket on hold, with a note for Accounting.
Escrow will **NOT** disburse the fee ticket from Postings tab
- Escrow will mail the check to Corporate Accounting for final processing
- Accounting will base Escrow revenue from the Receivables/Invoices

15.1 ESCROW ROLE: RECEIVABLES TAB

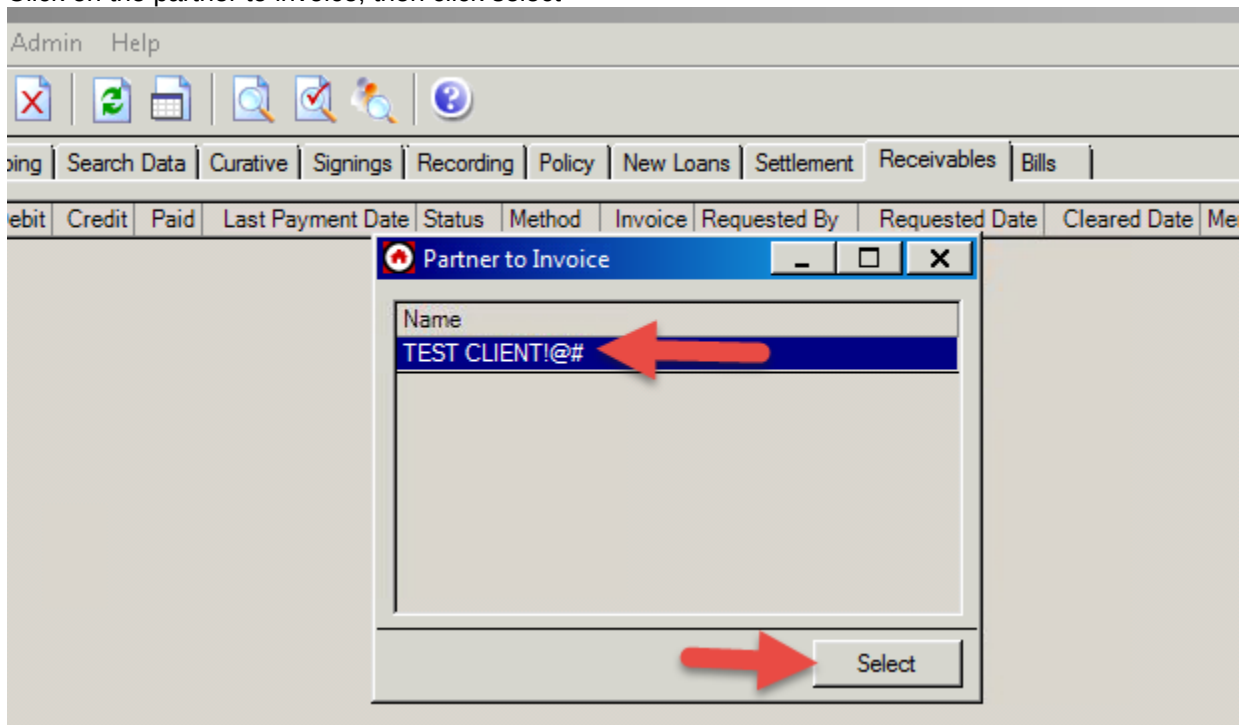

Escrow will be using the Receivables tab to create the Invoice. This procedure will assume that Escrow has already added all applicable fees from the Title Charges and Recording Fees tab, that will eventually become Escrow's Fee ticket.

- Proceed to Receivables tab
- Click on "Get Fees From Settlement" button

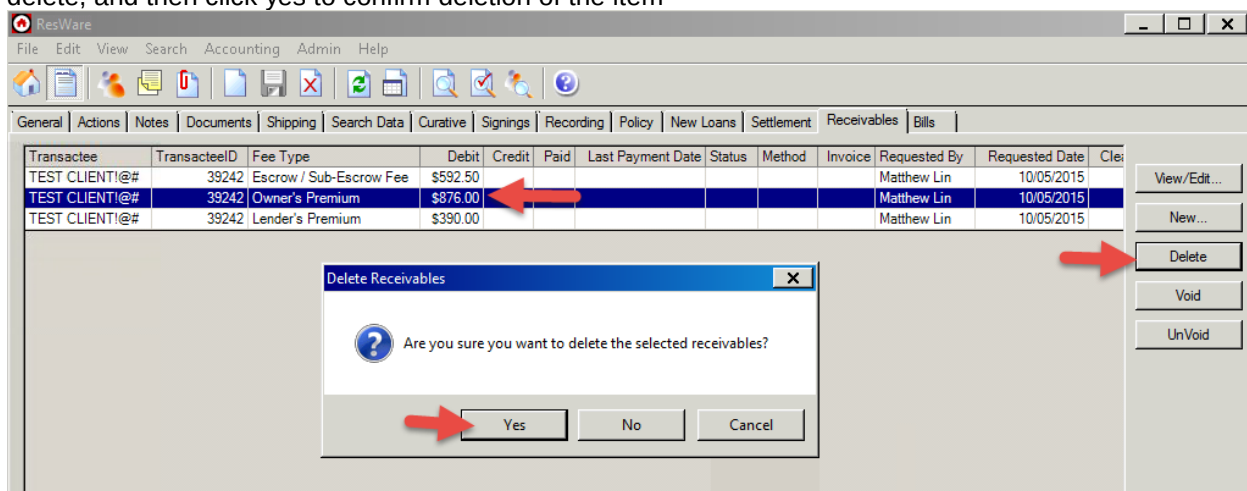

Rev. Date	Rev. No.	Page No.
2/9/2016	1.0	47

- c. Click on the partner to invoice, then click select

- d. The list of fees to invoice (as Escrow income) will populate. Take note of the following scenarios:
- In the event a fee populates that should not be included in the Invoice, highlight the appropriate fee, click delete, and then click yes to confirm deletion of the item

Rev. Date	Rev. No.	Page No.
2/9/2016	1.0	48

MANUAL: TIPS AND TRICKS (T&T)

GROUP: ESCROW

- ii. In the event when an Escrow Income fee is not listed on this Receivables tab, and needs to be incorporated into the Invoice: Click New (which will yield a "new receivable" menu screen), select Invoice partner from the dropdown, select the Fee type from the type dropdown, enter the amount of the income, enter Memo if necessary, select the appropriate accounting code, and then click save.

- e. Double check all applicable fees by double clicking on each invoice line item. Note: It is extremely important to include an applicable accounting code.

- f. If the appropriate accounting code is not inserted, highlight the fee and click edit. This will bring up an "Edit Entry Item" which will allow for changes to be made to the specific invoice item.

Rev. Date	Rev. No.	Page No.
2/9/2016	1.0	49

MANUAL: TIPS AND TRICKS (T&T)

GROUP: ESCROW

- g. Verify your total invoice for your Escrow Fee Income on the bottom left corner of the Receivables tab. This is your total Escrow Fee income.

GROUP: ESCROW

- Once this step is complete, proceed to Settlement/Postings Tab.
- In the Disbursements column, highlight the Escrow Fee Income and click the following button: **Hold/Unhold**
- Escrow needs to type in a reason for hold. This will be for Accounting to review. Enter the following:
INVOICE CREATED IN RECEIVABLES TAB
- Click save. Escrow is complete with ResWare and Accounting will process the fee ticket from this point. Note: Escrow will not need to unhold the amount and also note that the disbursement amount will always be short because we are not disbursing the Escrow Fee Income.
- Once the check is received from Clients, mail the checks to Accounting for further processing.

15.2 ACCOUNTING ROLE – RESWARE INVOICES

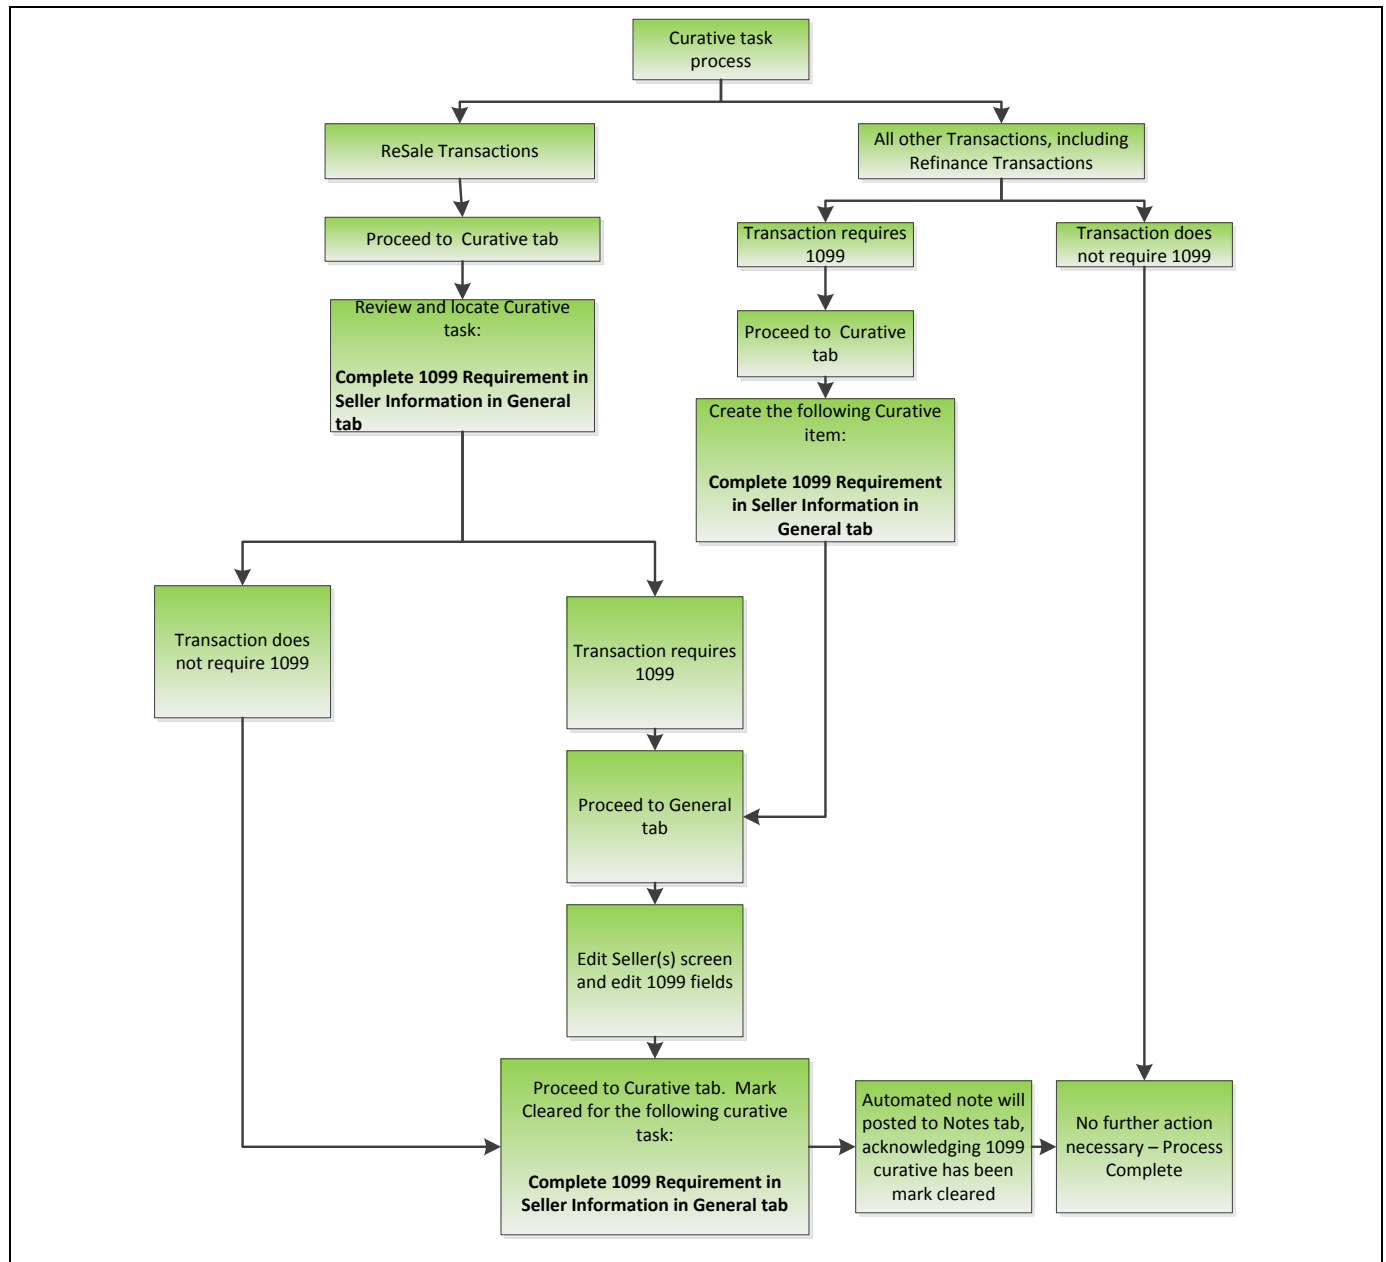

The Receivables tab works exactly the same way as For Title Onlys in SoCal. Accounting can refer to the Invoice menu to review all the fees associated with the Escrow Fee Income. Escrow will provide the following:

- The fees will be built out in the Receivables tab, with the Accounting codes. The Escrow Fees will push to the CRRAR output extract – excel sheet, via the 555006845 account.
- Escrow will put a hold on the Escrow Fee Income on the disbursement. No Escrow fee will be disbursed from the Settlement/Postings tab
- Upon receipt of the client's check, Escrow will deliver check to Corporate Accounting.

16.0 1099 PROCESS - RESWARE

This procedure will only cover the 1099 as it relates to the General tab screen. The Curative tab screen will also be used as a checkpoint for completion of the 1099 process in ResWare. Below is the process flow for Resale Transactions, and all other Transactions (including Refinance Transactions):

Rev. Date	Rev. No.	Page No.
2/9/2016	1.0	52

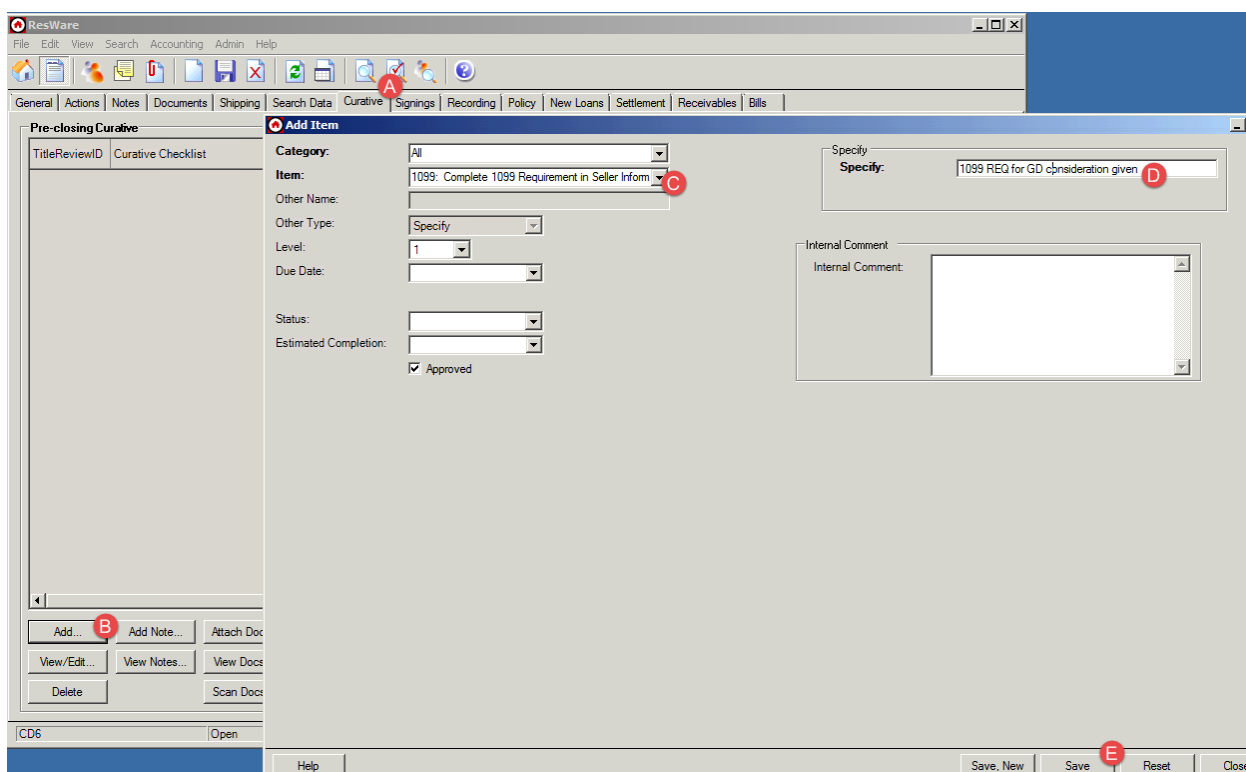

16.1 CURATIVE TAB – 1099 PROCESS

This section will demonstrate how to clear a 1099 task that has already been added to files (example: Resale transactions), and how to create a new 1099 task (non Resale transactions, including Refinance transactions). Follow the flow chart from the Overview section on determining when to mark cleared, and when to create a 1099 task.

16.1.1 CREATING A 1099 TASK (NON RESALE TRANSACTIONS)

The below steps are required for non-resale transactions that require a 1099. The reason this step is required, is that non-resale transactions will not pull in the 1099 curative task.

- a. Proceed to Curative tab
- b. Click the Add button. An Add Item menu will populate.
- c. Item dropdown: select the following from the dropdown: **1099: Complete 1099 Requirement in Seller Information (or Buyer for Refi) in General Tab, if applicable**
- d. Specify column: Type in a reason for why this 1099 is required.
 - iii. Example of a reason in specify column: "1099 REQ for GD consideration given"
- e. Click Save

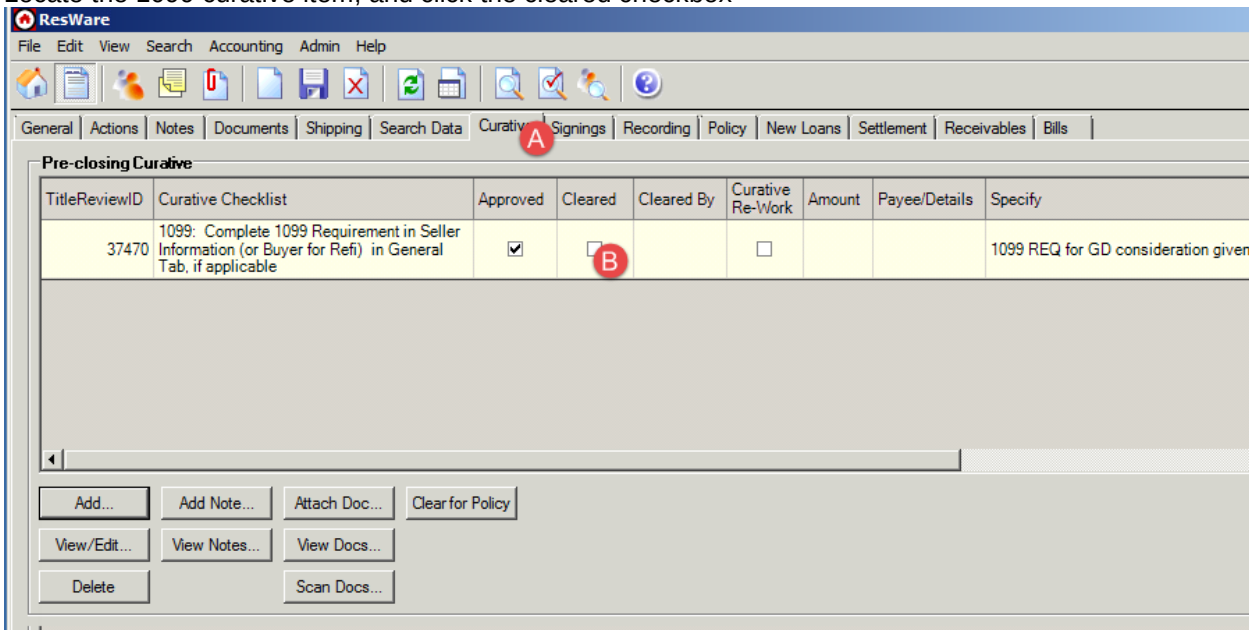

The screenshot shows the ResWare application window with the 'Add Item' dialog box open. The 'Category' dropdown is set to 'All'. The 'Item' dropdown is set to '1099: Complete 1099 Requirement in Seller Inform'. The 'Specify' field contains the text '1099 REQ for GD consideration given'. The 'Status' dropdown is set to 'Approved'. The 'Internal Comment' field is empty. The 'Add' button is highlighted with a red circle 'B'. The 'Save' button is highlighted with a red circle 'E'.

Rev. Date	Rev. No.	Page No.
2/9/2016	1.0	53

16.1.2 COMPLETING THE 1099 CURATIVE ITEM

Once the 1099 process is complete, Escrow needs to complete the 1099 task by marking the cleared check box. Before marking the cleared checkbox, make sure that you have completed the 1099 items from the General tab. As noted in the previous section, the 1099 curative item will populate on every Resale file. Even if the Resale does not require a 1099, you must proceed with the following steps.

- f. Proceed to Curative tab
- g. Locate the 1099 curative item, and click the cleared checkbox

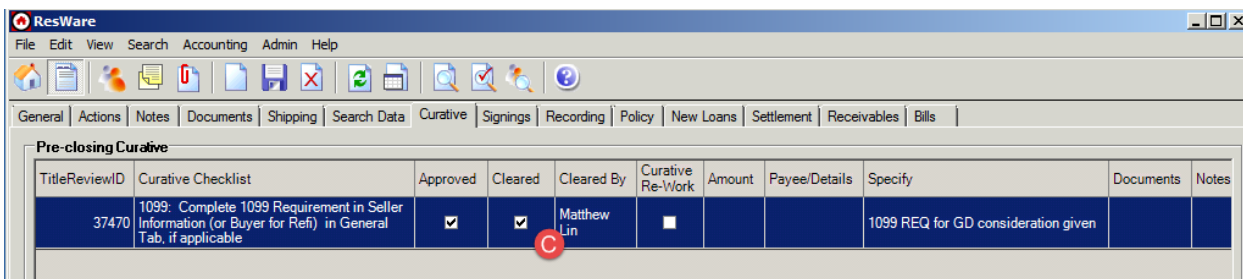

The screenshot shows the ResWare application window with the 'Pre-closing Curative' tab selected. The table below represents the data visible in the application:

TitleReviewID	Curative Checklist	Approved	Cleared	Cleared By	Curative Re-Work	Amount	Payee/Details	Specify
37470	1099: Complete 1099 Requirement in Seller Information (or Buyer for Refi) in General Tab, if applicable	☒	☐		☐			1099 REQ for GD consideration given

Buttons at the bottom of the window include: Add..., Add Note..., Attach Doc..., Clear for Policy, View/Edit..., View Notes..., View Docs..., Delete, and Scan Docs...

- h. Once the cleared box is marked checked, the cleared by item column will show your name.

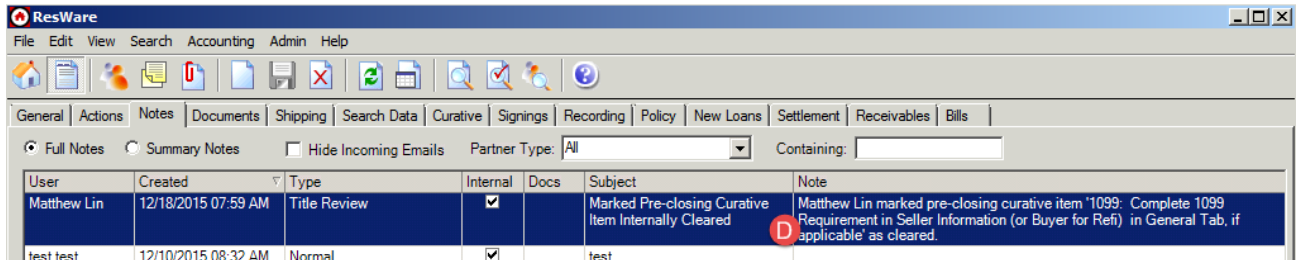

The screenshot shows the ResWare application window with the 'Pre-closing Curative' tab selected. The table below represents the data visible in the application:

TitleReviewID	Curative Checklist	Approved	Cleared	Cleared By	Curative Re-Work	Amount	Payee/Details	Specify	Documents	Notes
37470	1099: Complete 1099 Requirement in Seller Information (or Buyer for Refi) in General Tab, if applicable	☒	☒	Matthew Lin	☐			1099 REQ for GD consideration given		

Rev. Date	Rev. No.	Page No.
2/9/2016	1.0	54

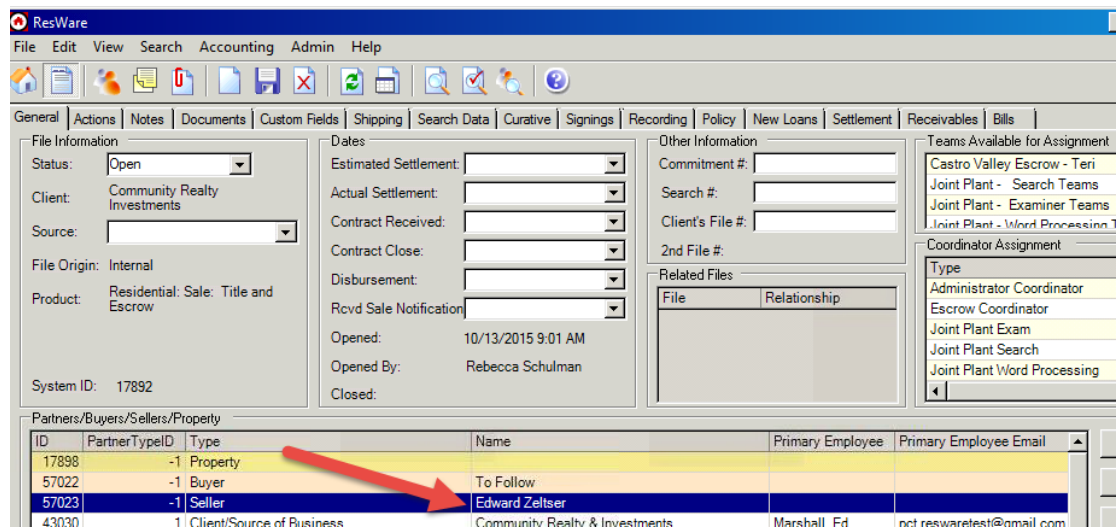

- i. The Notes tab will also automatically reflect that the 1099 curative item has been marked as cleared. The 1099 process in ResWare is complete. This is an acknowledgement that you are aware that you have completed the 1099 process

16.2 GENERAL TAB – 1099 PROCESS

This section needs to be completed prior to clearing the curative tab item.

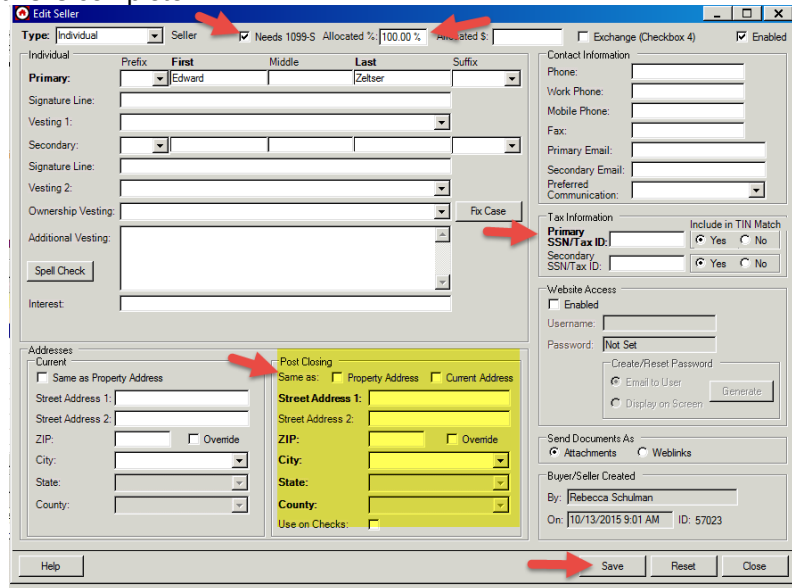

- a. Double click on the seller in General tab (or for

- b. A few fields will need to be added to complete this process:

Rev. Date	Rev. No.	Page No.
2/9/2016	1.0	55

- i. The box pertaining to “Needs 1099-S” needs to be checked
- ii. Allocation: If there are multiple entities, make sure to include the correct allocation percentages. For example, if there were two sellers, each allocation should reflect 50%. In this example, there is only one seller, so the allocation would represent 100%
- iii. Tax information: fill out the SSN/Tax ID
- iv. Post closing: Provide a post closing address for the seller.
- v. Click save once this is complete

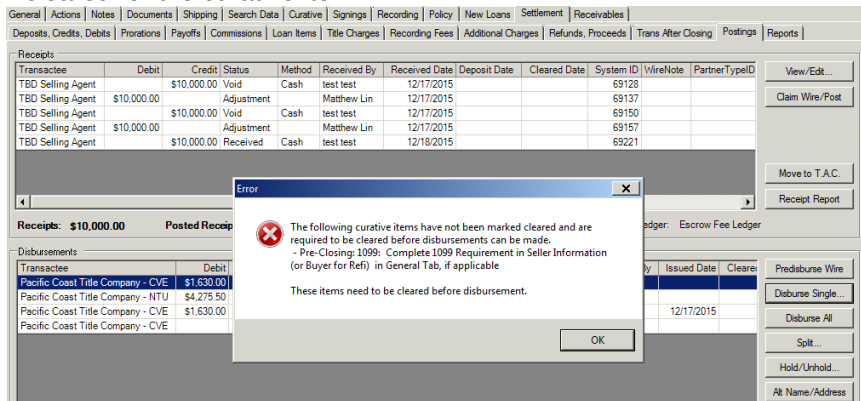

The screenshot shows the 'Edit Seller' window. Key elements highlighted with red arrows include:

- The 'Needs 1099-S' checkbox, which is checked.
- The 'Allocated %' field, set to 100.00%.
- The 'Post Closing' section, which includes fields for 'Street Address 1', 'Street Address 2', 'ZIP', 'City', 'State', and 'County'.
- The 'Save' button at the bottom right.

- c. There will be a report that extracts this 1099 information from the General tab, which will be used to submit to the IRS. IRS regulations require that proceeds be reported through IRS at the beginning of the year following close of escrow year. A report is generated to extract this 1099 information from the General, which will be used to submit to the IRS. A 1099 form will be generated and mailed to the tax payer at the first part of the next calendar year and prior to the IRS transmissions.

16.3 1099 FAQs

- a. Is it required that I “mark cleared” for the 1099 item in Curative tab? What if I don’t mark cleared?
 - i. A new feature has been added to ResWare. If the 1099 curative item has not been mark cleared, an Error will notification will appear. The only way to override this is to complete the process in general tab, and then to mark cleared for the curative item.

The screenshot shows the ResWare interface with a receipt list. An error message is displayed, stating:

- The following curative items have not been marked cleared and are required to be cleared before disbursements can be made.
- Pre-Closing 1099: Complete 1099 Requirement in Seller Information (or Buyer for Ref) in General Tab, if applicable.
- These items need to be cleared before disbursement.

17.0 FEE TICKET REVERSAL PROCESS

This section will outline the steps required for a Fee Ticket Reversal in ResWare. Once the Fee Ticket has already been disbursed, specific steps are required. The steps are as follows:

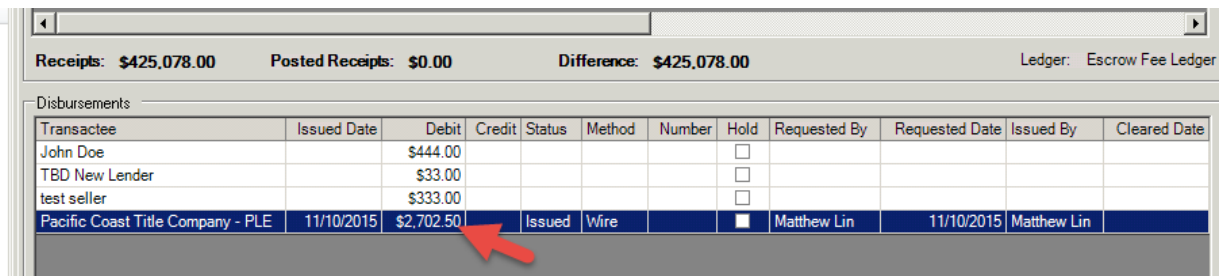

- Escrow will identify the fees that will need to be reversed. Escrow will create and print Fee Report with accounting numbers indicated, and circle the fee items that are to be reversed, noting the reason for reversal and one branch authorized signers and branch manager will sign Fee Report.
- Escrow will make changes via TAC (Transactions After Closing), to create an anticipated receipt and disbursements
- Escrow will forward the branch approval form to County Management/Admin for approval.
- County Management/Admin will approve and send the Fee Report to Accounting for processing
- Accounting will review, approve the Fee Reversal, and post the receipt to ResWare. Posting will be done within 1 hour of receipt of reversal request (Fee Report).
- Accounting will complete back end of reversal and deposit amount to trust account.
- Escrow to check ResWare for posted receipt (within 1 hour). When posted, Escrow may continue with revised disbursements
- Escrow will send out amended HUDs/CDs to appropriate parties.

17.1 ESCROW – IDENTIFY FEES TO BE REVERSED

Before we start, let's assume the following: There is a \$55 notary fee that was issued with the Fee ticket, but we should have allocated the \$55 to a notary company instead. Therefore, a fee ticket reversal is required.

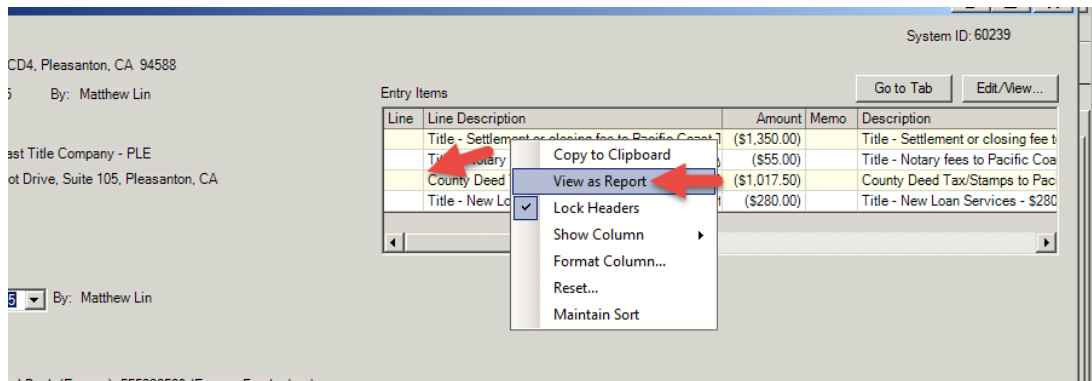

17.1.1 PRINT FEE REPORT

- Double click on the fee ticket

Transactee	Issued Date	Debit	Credit	Status	Method	Number	Hold	Requested By	Requested Date	Issued By	Cleared Date
John Doe		\$444.00					☐				
TBD New Lender		\$33.00					☐				
test seller		\$333.00					☐				
Pacific Coast Title Company - PLE	11/10/2015	\$2,702.50		Issued	Wire		☒	Matthew Lin	11/10/2015	Matthew Lin	

- In the entry items column, right click in any section within the grid
- Click on the "View as Report" option

Line	Line Description	Amount	Memo	Description
1	Title - Settlement or closing fees to Pacific Coast	(\$1,350.00)		Title - Settlement or closing fee t
2	Title - Notary	(\$55.00)		Title - Notary fees to Pacific Coa
3	County Deed	(\$1,017.50)		County Deed Tax/Stamps to Paci
4	Title - New Loan	(\$280.00)		Title - New Loan Services - \$280

Rev. Date	Rev. No.	Page No.
2/9/2016	1.0	57

MANUAL: TIPS AND TRICKS (T&T)

GROUP: ESCROW

- d. Print the Fee Report, and circle the applicable line description and accounting code.

Line	Line Description	Amount	Mem	Description	Common SettlementID	Accounting Code
	Title - Settlement or closing fee to Pacific Coast Title Company - PLE	(\$1,350.00)		Title - Settlement or closing fee to Pacific Coast Title Company - PLE	1263785	24 Escrow Fee 5020, 410001
	Title - Notary fees to Pacific Coast Title Company - PLE	(\$55.00)		Title - Notary fees to Pacific Coast Title Company - PLE	1263790	56 Notary Fee 5669, 415019
	County Deed Tax/Stamp to Pacific Coast Title Company - PLE	(\$1,017.50)		County Deed Tax/Stamp to Pacific Coast Title Company - PLE	1263808	21 Documentary Transfer Tax 9971, 205401
	Title - New Loan Services - \$280 to Pacific Coast Title Company - PLE	(\$280.00)		Title - New Loan Services - \$280 to Pacific Coast Title Company - PLE	1263822	34 New Loan Services 5521, 410001

- e. Add Escrow number to the Fee Report, indicate reason for reversal, sign by authorized signer and branch manager for approval, and submit to County Management/Admin.
f. Once Management approves, they will forward to Accounting via email

17.2 ESCROW – MAKE CHANGES VIA TAC

- a. Proceed to ResWare, highlight the fee ticket, and click Move to TAC.

Receipts: \$425,022.00 Posted Receipts: \$0.00 Difference: \$425,022.00 Ledger: Escrow Fee Ledger

Transactee	Issued Date	Debit	Credit	Status	Method	Number	Hold	Requested By	Requested Date	Issued By	Clear
John Doe		\$444.00					☐				
Pacific Coast Title Company - PLE		\$2,702.50					☒				

Buttons: Predisburse Wire, Disburse Single..., Disburse All, Split..., Hold/Unhold..., At Name/Address, Void, Stop Payment, Move to T.A.C.

- b. Once moved to TAC, make the changes necessary to the Settlement screens. In this particular example, the \$55 notary fee will now be allocated from PCT- Escrow to Notaries Express

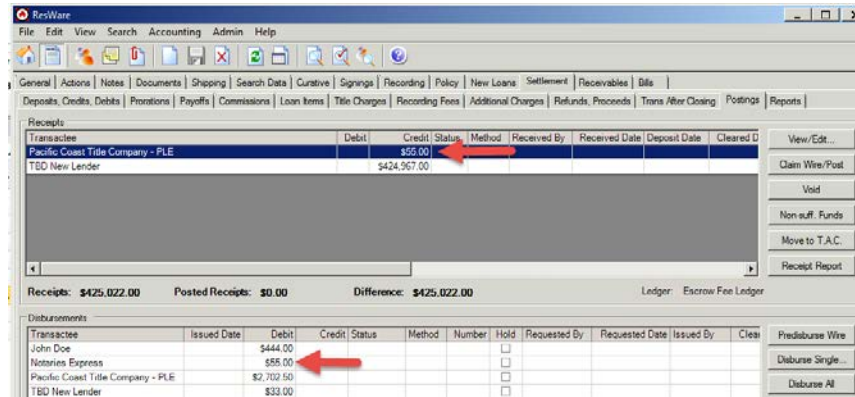

Loan: New Loan #1

Section	Settlement Type	Line Description	Group	Buyer Debit	Buyer Credit	Seller Debit	Seller Credit	Debit	Credit	Note

C	Notary Fees	Title - Notary fees to Notaries Express	Group	55.00						
C	Overnight Express Fees	Title - Overnight Express Fees to Pacific Coast Title Co	Group							
C	Settlement or Closing Fee	Title - Settlement or closing fee to Pacific Coast Title Co	Group	1,350.00						

Details: Type: Notary Fees Partner: View Notaries Express Section: C POC: No Override Line Desc: Title - Notary fees to Notaries Express

Rev. Date	Rev. No.	Page No.
2/9/2016	1.0	58

- c. Once the line has been reallocated, ResWare will automatically create an anticipated receipt and an anticipated disbursement

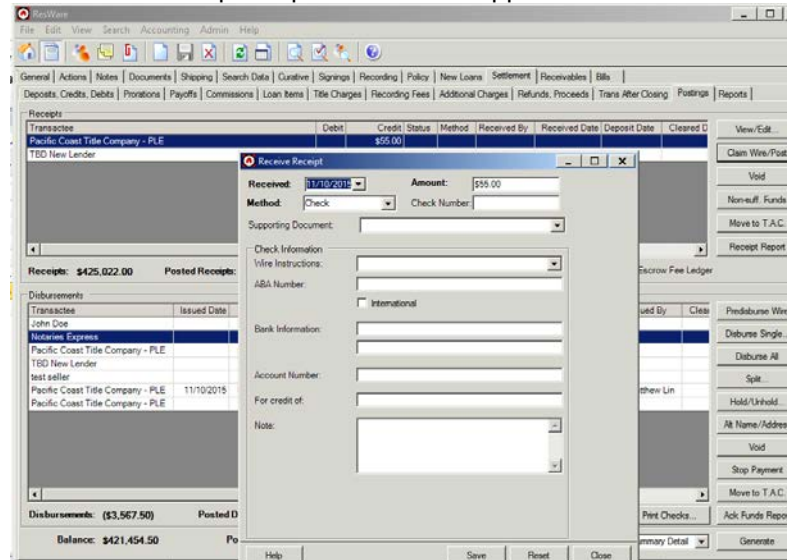

17.3 ACCOUNTING – REVIEW AND APPROVE FEE REVERSAL

- Accounting will receive the Fee Ticket Reversal Form and the Fee Report, which indicates which items to reverse.
- Once reviewed, Accounting will post the amount to ResWare (within the hour). No further communication will be made to Escrow.

17.3.1 ACCOUNTING – COMPLETE RECEIPT PROCESS

- Accounting can now review the Settlement/postings tab to ensure that the receipt has been accurately created
- Accounting will then use the claim wire/post option and enter applicable check information

17.4 ESCROW – PROCEED WITH DISBURSEMENTS AND CREATE NEW HUD/CD

- Escrow to verify that the receipt has been completed.
- Escrow can now proceed with disbursing any pending amounts to partners. Note: if there is still an additional amount to be disbursed as revenue to PCT, this can still be done. The file can accommodate multiple fee tickets.
- Escrow may also print and distribute a revised HUD/CD via the Settlement/Reports tab.

Rev. Date	Rev. No.	Page No.
2/9/2016	1.0	59

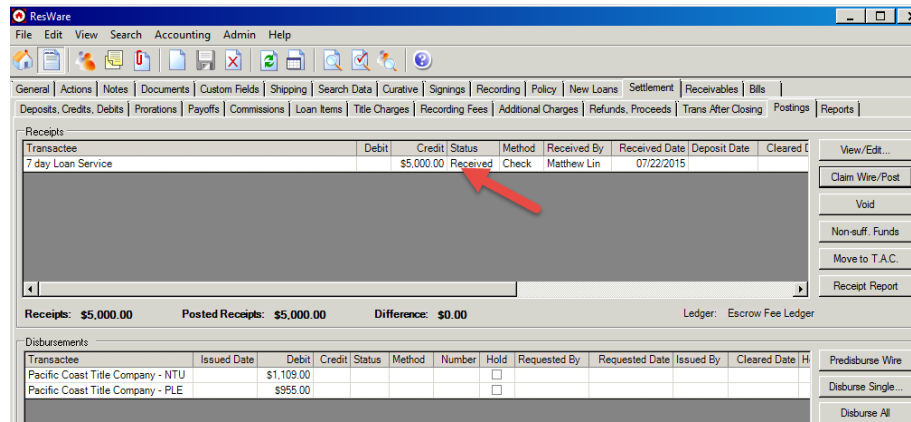

18.0 FILE TO FILE TRANSFER OF FUNDS – RESWARE

This guide will cover how to transfer funds from one ResWare file to another. As a quick summary, the following responsibilities are as follows:

- Escrow will set up the disbursement in the files to be transferred
- Escrow will set up the anticipated receipt where the file is to be transferred to
- Accounting will transfer the funds between the two files.

18.1 FILE TRANSFER CRITERIA – ESCROW ROLE

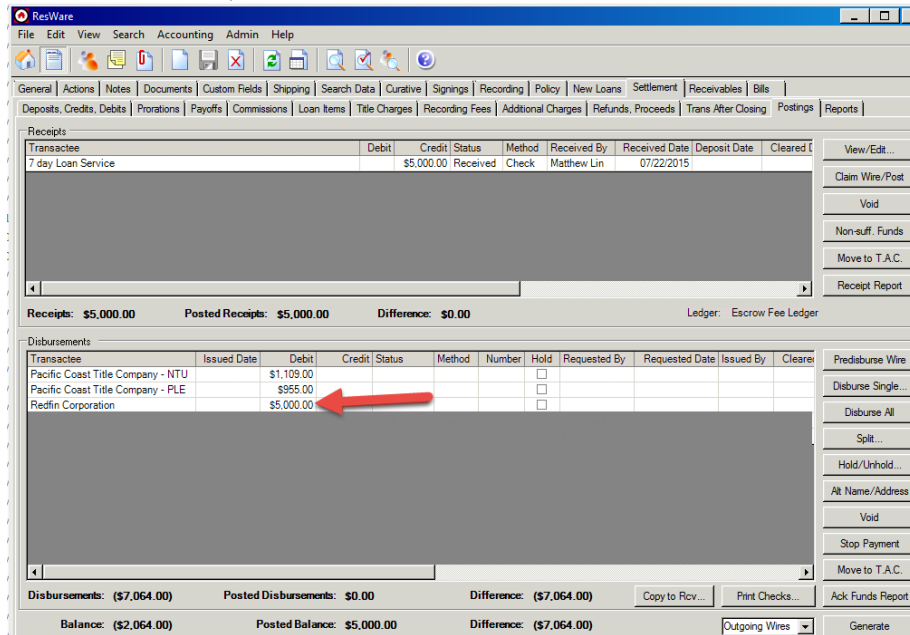

Here's an example of a file where we have a deposit of \$5,000, are looking to cancel the file, and transfer the \$5,000 to a new file.

Transactee	Debit	Credit	Status	Method	Received By	Received Date	Deposit Date	Cleared
7 day Loan Service		\$5,000.00	Received	Check	Matthew Lin	07/22/2015		

Receipts: \$5,000.00 Posted Receipts: \$5,000.00 Difference: \$0.00 Ledger: Escrow Fee Ledger

- A few items must occur in order to facilitate file to file transfer:
 - File to be transferred from (Old file):** Escrow must create a disbursement for that amount. So for example, a disbursement of \$5,000 must be created

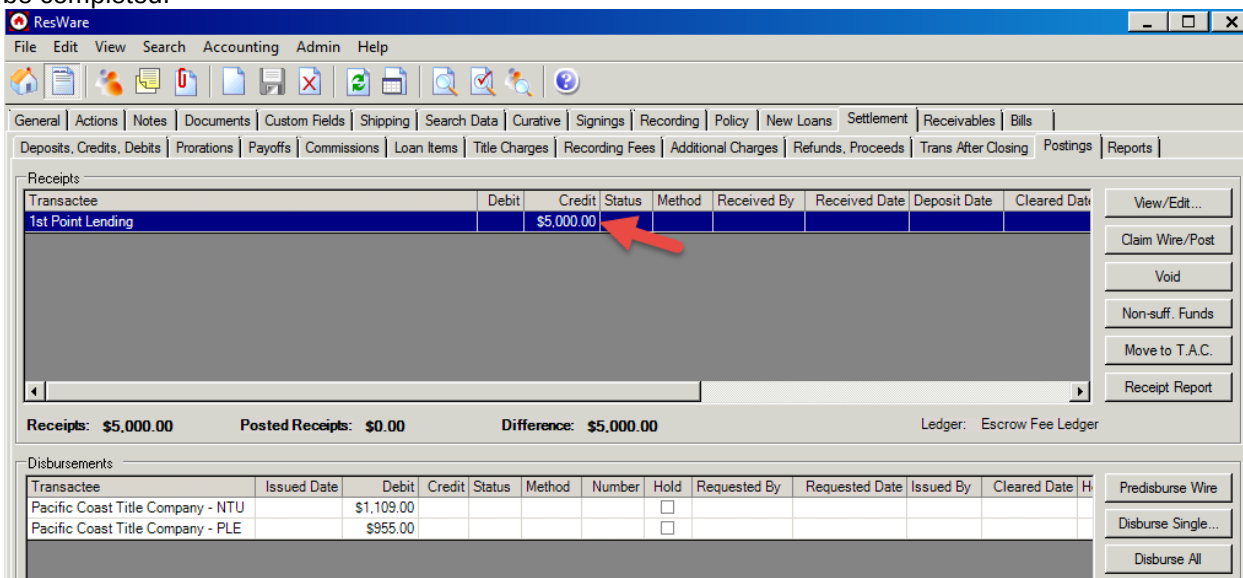

Transactee	Issued Date	Debit	Credit	Status	Method	Number	Hold	Requested By	Requested Date	Issued By	Cleared
Pacific Coast Title Company - NTU		\$1,109.00					☐				
Pacific Coast Title Company - PLE		\$955.00					☐				
Redfin Corporation		\$5,000.00					☐				

Disbursements: (\$7,064.00) Posted Disbursements: \$0.00 Difference: (\$7,064.00) Copy to Rcv... Print Checks... Ack Funds Report

Balance: (\$2,064.00) Posted Balance: \$5,000.00 Difference: (\$7,064.00) Outgoing Wires Generate

Rev. Date	Rev. No.	Page No.
2/9/2016	1.0	60

- iii. **File to be transferred to (New file):** Escrow must create an anticipated receipt so that the transfer can be completed.

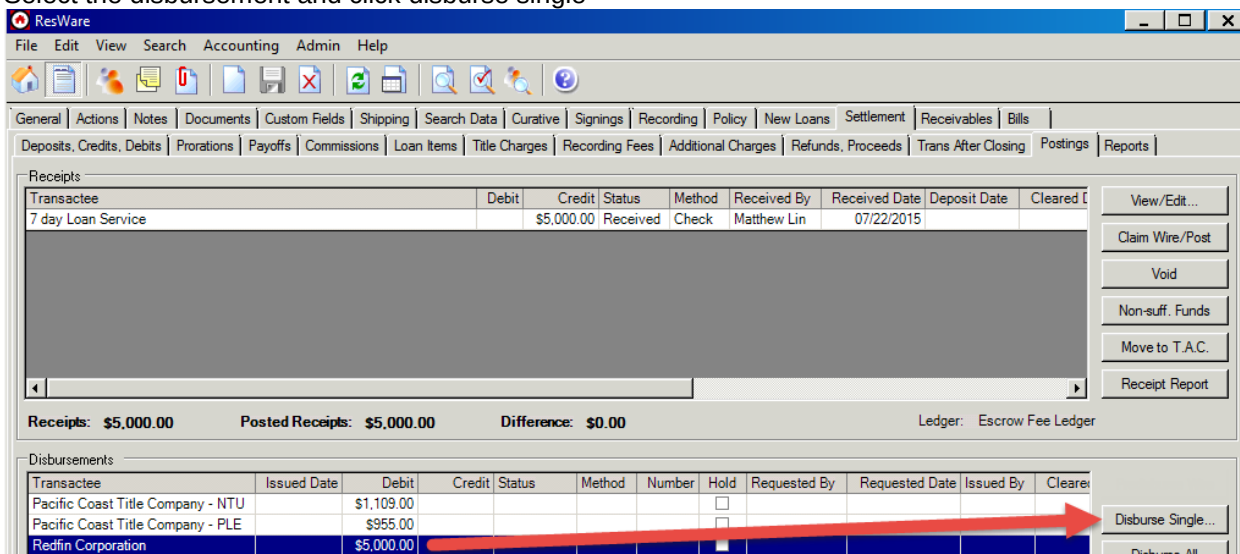

The screenshot shows the ResWare application window with the 'Receipts' tab selected. The 'Transactee' column lists '1st Point Lending'. The 'Credit' column shows '\$5,000.00', which is highlighted by a red arrow. The 'Status' column is empty. The 'Method' column is empty. The 'Received By' column is empty. The 'Received Date' column is empty. The 'Deposit Date' column is empty. The 'Cleared Date' column is empty. The 'View/Edit...' button is visible. The 'Claim Wire/Post' button is visible. The 'Void' button is visible. The 'Non-suff. Funds' button is visible. The 'Move to T.A.C.' button is visible. The 'Receipt Report' button is visible. The 'Receipts' summary shows: Receipts: \$5,000.00, Posted Receipts: \$0.00, Difference: \$5,000.00. The 'Disbursements' section shows a table with columns: Transactee, Issued Date, Debit, Credit, Status, Method, Number, Hold, Requested By, Requested Date, Issued By, Cleared Date. The table contains two rows: Pacific Coast Title Company - NTU with Debit \$1,109.00 and Pacific Coast Title Company - PLE with Debit \$955.00.

18.2 STEPS ON HOW TO TRANSFER FUNDS – ACCOUNTING ROLE

Accounting will proceed with the below steps.

- Once the above criteria have been met, the transfer may now commence. Proceed to postings tab for the file that is being transferred from (old file)
- Select the disbursement and click disburse single

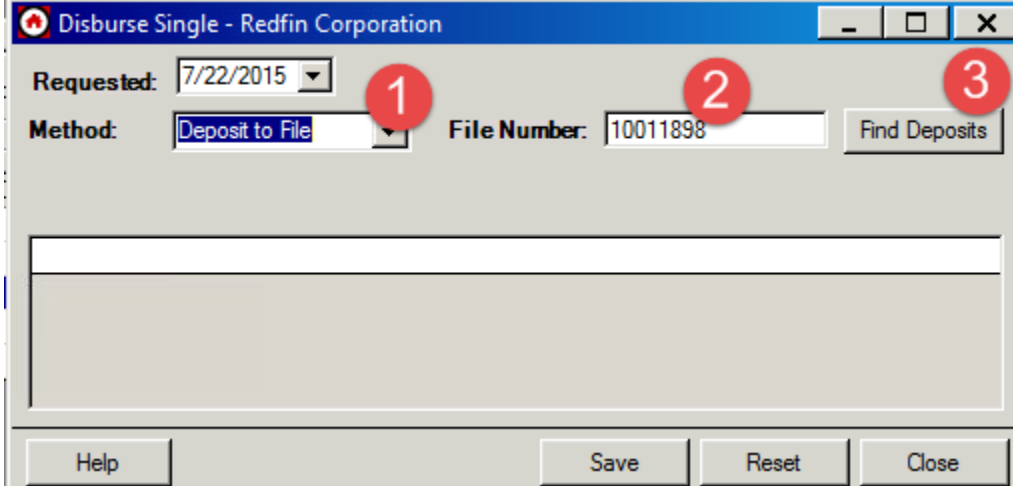

The screenshot shows the ResWare application window with the 'Disbursements' tab selected. The 'Transactee' column lists '7 day Loan Service'. The 'Debit' column shows '\$5,000.00'. The 'Credit' column shows 'Received'. The 'Status' column shows 'Check'. The 'Method' column shows 'Matthew Lin'. The 'Received Date' column shows '07/22/2015'. The 'View/Edit...' button is visible. The 'Claim Wire/Post' button is visible. The 'Void' button is visible. The 'Non-suff. Funds' button is visible. The 'Move to T.A.C.' button is visible. The 'Receipt Report' button is visible. The 'Disbursements' summary shows: Receipts: \$5,000.00, Posted Receipts: \$5,000.00, Difference: \$0.00. The 'Disbursements' section shows a table with columns: Transactee, Issued Date, Debit, Credit, Status, Method, Number, Hold, Requested By, Requested Date, Issued By, Cleared Date. The table contains three rows: Pacific Coast Title Company - NTU with Debit \$1,109.00, Pacific Coast Title Company - PLE with Debit \$955.00, and Redfin Corporation with Debit \$5,000.00. A red arrow points to the 'Disburse Single...' button.

Subject: RE: 716705-Pine Grove, LLC (Revised payoff statement Friday September 11, 2015)

On September 15, I sent Mark Ellis a signed and notarized request for reconveyance and a signed and notarized release of the assignment of leases and rents. That is what the settlement agreement required us to send. On September 18, I also sent him the original promissory note (marked paid) and the original of the recorded deed of trust and assignment of leases and rents.

2/9/2016	1.0	71

21.0 OPENING A SECONDARY FILE

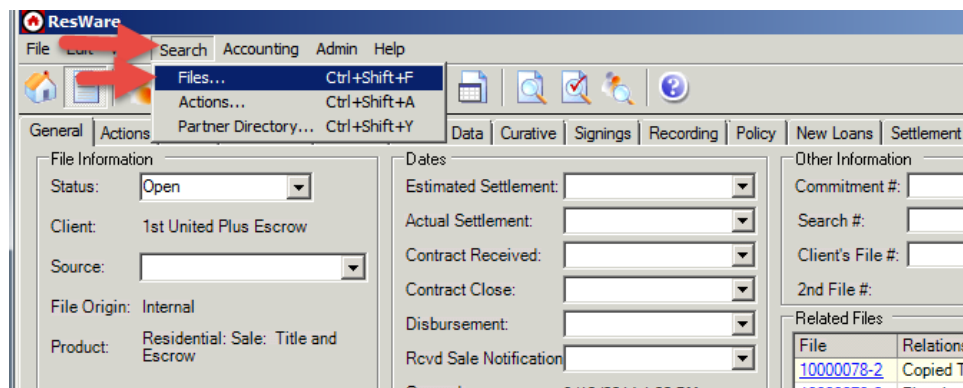

ResWare has the ability to quickly open a secondary file that is associated with an original file. Escrow Officers will be using this when a transaction has more than one loan. There is no capability within ResWare to establish 2 HUDs showing 2 loans on one file. This will require us to establish separate files for additional loans. For example, if you have a file with two loans, loan number one will be on the primary/main file, and loan number two will be on the secondary file.

Take note of the following standards that we must adhere to when establishing a secondary file:

- a. **New Loans tab:** Do not show the second loan amount in the main file
 - i. **Second Loans:** In the ancillary (2nd) file, show loan amount as a first loan. This will place the anticipated wire in your postings tab for the second loan funding. Likewise, if you had a 3rd loan, In the 2nd ancillary (3rd file), show the loan amount as well as the first loan.
- b. **Settlement tab:** Do not show the fees associated with the second loan in the main file
 - i. Separate title charges to reflect loan #1 on main file, loan #2 on ancillary file, and if there is another loan #3, loan #3 on the second ancillary file.
- c. **Policies:** The policy should only pertain to the specific file; for example, for the 2nd loan, the 2nd policy will be shown on the secondary file. If there is no requirement for a second policy, please communicate this to all parties and make a note in ResWare, or create your Policy Write up document indicating NO INSURANCE REQUIRED.
- d. **Transferring of funds:** In the event where your lenders send funds in bulk, intended for all your loans, you will accomplish this via transfer of funds. You will need to establish an anticipated receipt in in the deposits/debits/credits tab in the secondary file, then create an equal amount for disbursement from the main file, and then work with accounting to facilitate the transfer.

21.1 OPENING A SECONDARY FILE IN RESWARE

- a. Click on Search
- b. Click on Files

Rev. Date	Rev. No.	Page No.
2/9/2016	1.0	72

MANUAL: TIPS AND TRICKS (T&T)

GROUP: ESCROW

- c. Enter file number in the file number column
- d. Click search. The file will be revealed in the search results column
- e. Single click on the file number in the search results column
- f. Click Copy file button

The screenshot shows the 'File Search' window. In the 'File' section, the 'File Number' is entered as 10004550. The 'Search' button is in the top right. The 'Search Results' table at the bottom lists the found file. The 'Copy File' button is in the right sidebar.

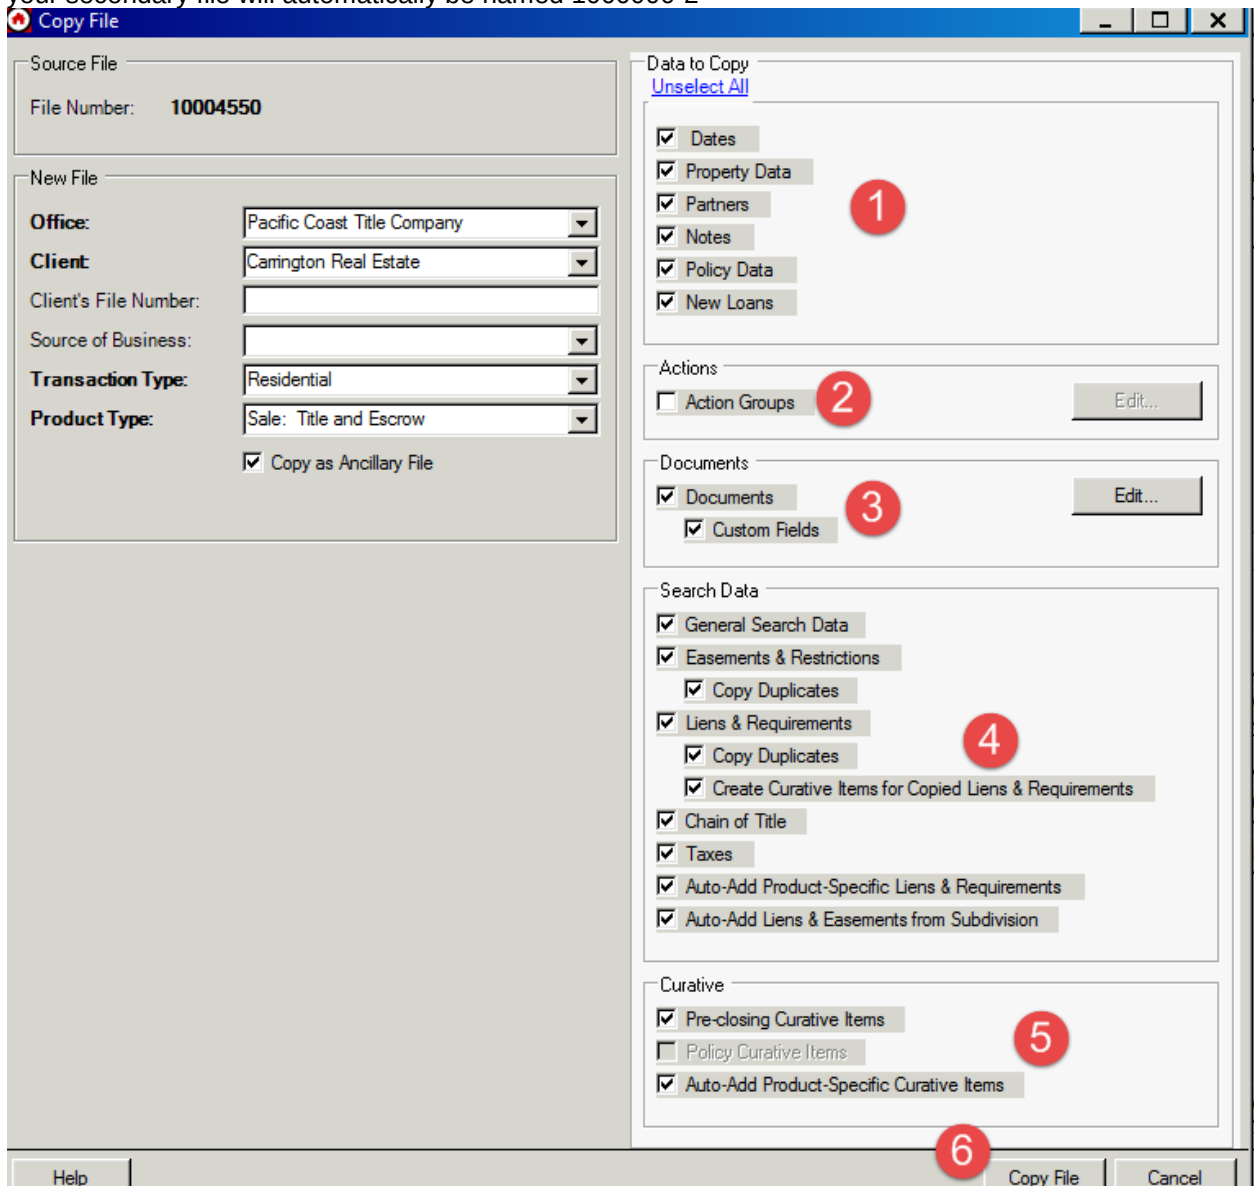

File Number	Client	Status	Address	Product Type	Primary Transaction	Opened	Client's File #	Primary Contact
10004550	Carrington Real Estate	on	1087 Meridian Avenue, San Jose, CA	Residential	This is Pre-sale	01/21/2015		David Hidalgo

- g. **Transaction type dropdown:** Select the exact transaction type as the original file
- h. **Product type dropdown:** Select the exact product type as the original file
- i. Click on the Copy as Ancillary file check box

The screenshot shows the 'Copy File' window. The 'Source File' section shows the file number 10004550. The 'New File' section has dropdowns for 'Office' (Pacific Coast Title Company), 'Client' (Carrington Real Estate), 'Source of Business', 'Transaction Type' (Residential), and 'Product Type' (Sale, Title and Escrow). The 'Copy as Ancillary File' checkbox is checked. The right sidebar contains sections for 'Data to Copy', 'Actions', 'Documents', 'Search Data', and 'Curative'.

Rev. Date	Rev. No.	Page No.
2/9/2016	1.0	73

- j. **Data to copy section:** It is highly recommended to keep all the boxes in this section checked. This will transfer all your partners, dates, notes, property data, policy, and new loan data to the new ancillary secondary file
- k. **Actions section:** Uncheck that box
- l. **Documents section:** You can copy some or all of your documents from the original file to the new file. If you only want some of the documents to transfer to the secondary file, click on the edit button to further specify which documents to select.
- m. **Search data:** There is no harm to transfer search data information from original file to secondary file. This would be more pertinent for Title.
- n. **Curative:** It is highly recommended to keep all the boxes in this section checked.
- o. Click copy file. ResWare will open a new file with a -2. So for example, if your original number was 1000000, your secondary file will automatically be named 1000000-2

21.2 FINAL STEP FOR SECONDARY FILES – IMPORTANT!!!

Action items are automatically started for secondary files. However, secondary files do not require any actions as the actions are all completed on the original file. So all Escrow must complete this step immediately after creating the secondary file.

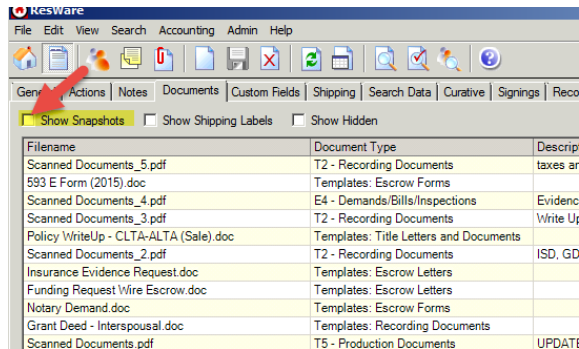

- In the general tab for the secondary file, there is a section called: teams available for assignment. Select each team one by one
- Click the remove button
- Repeat this process until there no more teams to remove
- Once all teams are removed, click the refresh button.

22.0 GENERAL FAQs

- a. **Documents tab:** I don't want to see snapshots, is there a way to turn that functionality off?
- Yes. Simply go to the Documents tab, and uncheck the snapshots box. This will hide all snapshots for all the files going forward.

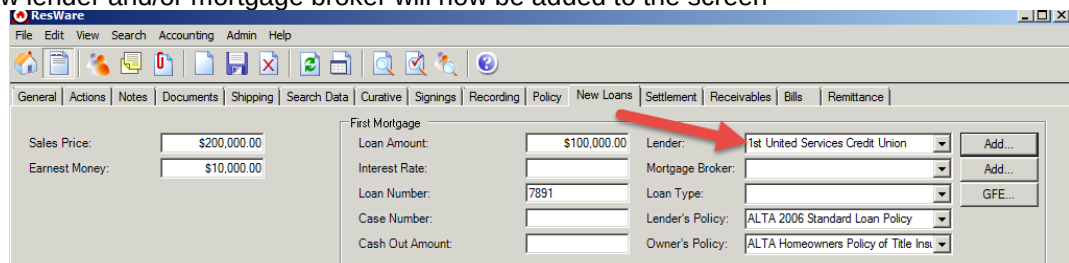

- b. **New Loans tab:** There's no lender added yet to my file. How do I add this?
- In the new loans tab, there are 2 add buttons associated with the first mortgage. The 1st button is associated with the lender, and the 2nd button is associated with the mortgage broker.

- Enter Company name. Note: It's better not to entirely fill out the company name as there may be variations in ResWare. For example, for 1st United Services Credit Union, just type in 1st (and sometimes you may want to test out "First").
- Click search
- Select the appropriate partner match, and then click select.

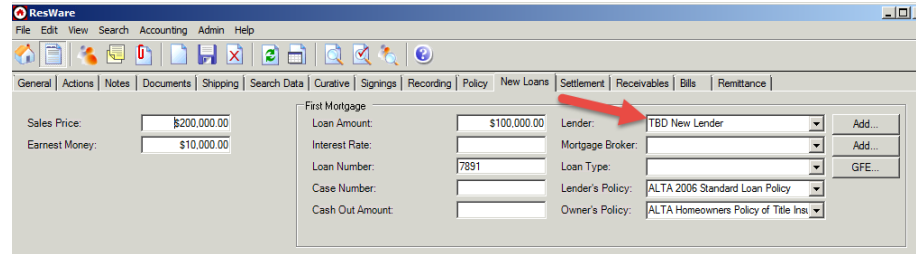

- v. The new lender and/or mortgage broker will now be added to the screen

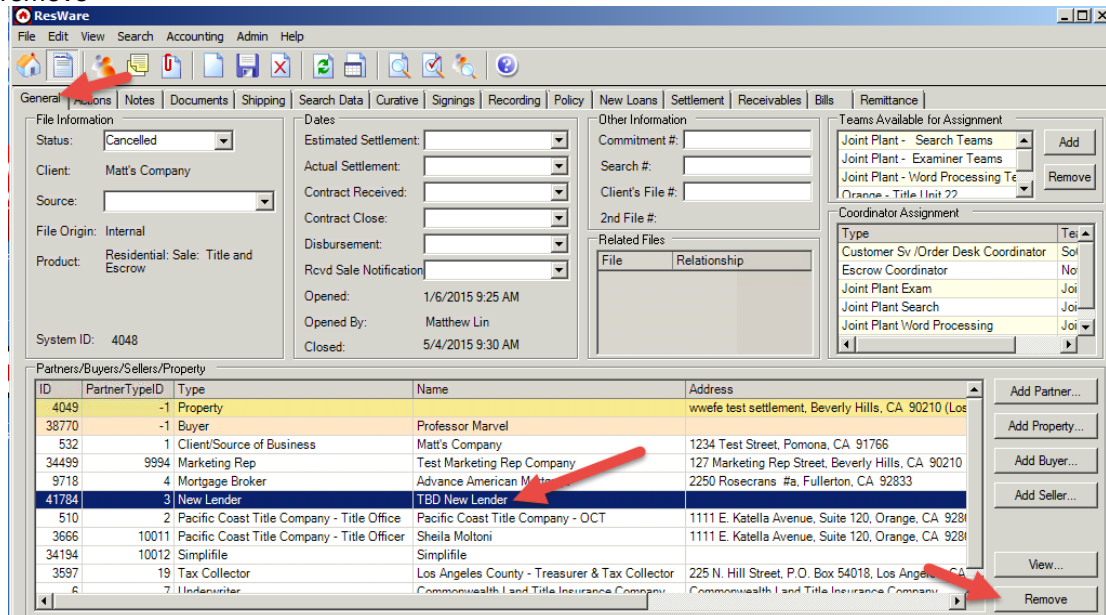

Rev. Date	Rev. No.	Page No.
2/9/2016	1.0	78

- c. **New Loans tab:** What if I added a lender and I needed to change it (or a TBD because I was not sure yet of my lender)?
- i. First, the TBD New Lender must be removed.

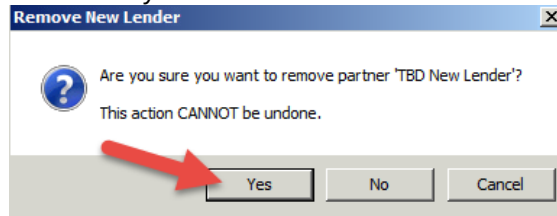

- ii. Proceed to the General tab
- iii. Click on the new lender that needs to be deleted.
- iv. Click remove

ID	PartnerTypeID	Type	Name	Address
4049	-1	Property		
38770	-1	Buyer	Professor Marvel	wwe test settlement, Beverly Hills, CA 90210 (Los Angeles)
532	1	Client/Source of Business	Matt's Company	1234 Test Street, Pomona, CA 91766

MANUAL: TIPS AND TRICKS (T&T)

GROUP: ESCROW

- d. **Searching for a Partner:** What if I am searching for my new lender/mortgage broker, but I cannot locate, or they are not in the system?
 - i. Contact an Escrow Power user for additional assistance in locating and/or adding a new lender and/or mortgage broker.
- e. **Transaction types/Product types:** What type of transactions and product types are available in ResWare? What are the differences?

Transaction type	Product Types	Notes
Residential or Commercial	Loan: Title and Escrow Sale: Title and Escrow Sale (CASH): Title and Escrow	Having both Title and Escrow means that PCT will at least play some role in both the Title and Escrow, even if the title report and policy is not underwritten by us
Residential or Commercial	Loan: Escrow Only Sale: Escrow Only	Escrow Only means that Title is completely done by an outside Title company; no intervention from PCT Title Units
Residential or Commercial	Loan: Title Only Sale: Title Only	Title only means that Escrow is completely done by an Outside Escrow Company; no intervention from PCT Escrow Units.

- f. **Settlement tab:** What does the Itemize button do?
 - i. There are certain fees where you may want to show itemized on a separate page on the HUD

Itemization	Buyer	Seller
Line 1104		
a. Lender's coverage \$900.00 Premium \$50.00 to TBD - Marketing Rep	\$50.00	
Total:	\$50.00	\$0.00

MANUAL: TIPS AND TRICKS (T&T)

GROUP: ESCROW

- g. **Settlement tab:** What does the 0s and the F button do?
- Regarding 0s:** ResWare normally does not show any dollar amount for a specified line item with no fee. By clicking on the 0s, ResWare will show a 0.00 for that particular fee
 - Regarding F:** for hud line descriptions with no fees, ResWare will not show the line item description on the HUD. The F button will "force" an item that has no charge to show on ResWare.

- h. **Settlement tab/Payoffs sub tab:** How do I add the charges and fees for payoffs?
- In each payoff item that you add, there is a charges and fees link. Click on the link to reveal the possible payoff charges and fees

- A Charges and Fees screen will populate. Click Add

GROUP: ESCROW

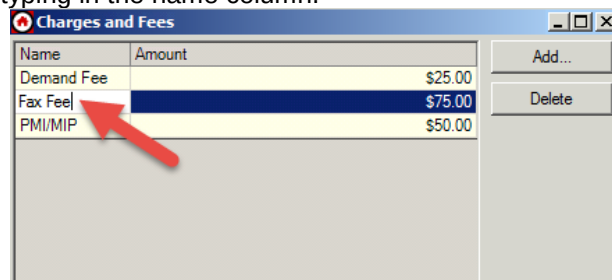

- iii. Hold the CTRL button, and select any/all applicable fees. If you cannot locate a fee that matches your requirement, select the Miscellaneous fee
- iv. Click Add

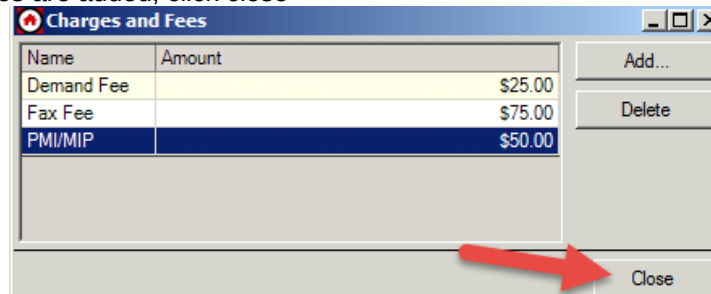

- v. Enter all applicable fees in the amount column

- vi. Note here that the Miscellaneous has been changed to "Fax Fee". You have the ability to manually override the name just by typing in the name column.

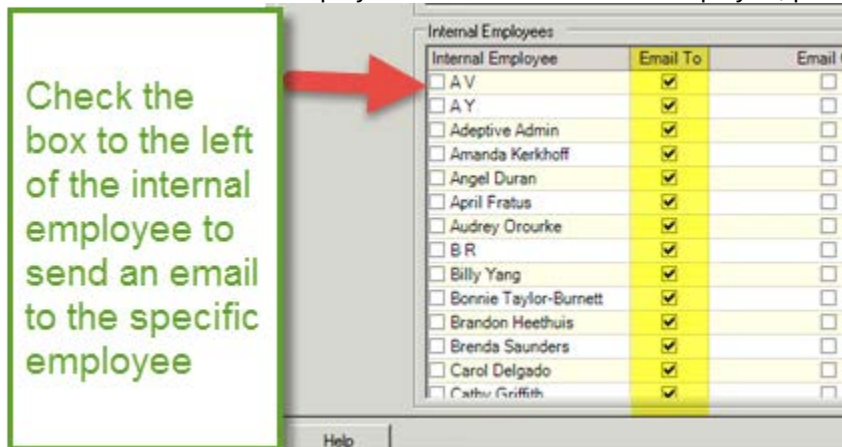

- vii. Once all applicable fees are added, click close

Rev. Date	Rev. No.	Page No.
2/9/2016	1.0	82

- i. **Emails:** I see a fax section, so does that mean that I am able to fax to our clients?
 - i. The fax option within ResWare is currently not operational at the moment. You'll have to fax using other resources.
- j. **Emails:** I see a lot of check boxes in the **Internal Employees** section. The column name is "Email To". Does that mean I am emailing to everybody?
 - i. You are not emailing to everybody. The checkbox simply means that there is an email address associated with the employee. To email an internal employee, place a check to the left of the name

- k. **Transferring Impact orders to ResWare orders:** What is the protocol when transferring Impact orders to ResWare?
 - i. Open the order in ResWare as a Title and Escrow transaction.
 - ii. Notify Title Production, Title Order Desk and ResWare Admin as soon as the order is opened in ResWare. In the email, provide the Impact order number and the ResWare order number
 - iii. Title will not produce a new Title Report as it has already been created in Impact.
 - iv. Admin will change the order number in ResWare, and rename it to the Impact order number
 - v. Closings/draws can now be done in ResWare, and Title related work will still be completed via Impact/Smartview
 - vi. Escrow will send all title communication and documents into and through ResWare. Any documents submitted in ResWare will be moved to SmartView by the title unit.
