CITY OF PARAMOUNT  
LOS ANGELES COUNTY, CALIFORNIA

ORDINANCE NO. 490

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF PARAMOUNT APPROVING AND ADOPTING THE AMENDED REDEVELOPMENT PLAN AND PROJECT AREA.

THE CITY OF PARAMOUNT does hereby ordain as follows:

**SECTION 1.** On December 18, 1973, the Paramount City Council adopted Ordinance No. 354 captioned:

"AN ORDINANCE OF THE CITY OF PARAMOUNT APPROVING AND ADOPTING THE REDEVELOPMENT PLAN FOR REDEVELOPMENT PROJECT NO. 1."

**SECTION 2.** On February 13, 1975, the Paramount City Council adopted Ordinance No.'s 385, 386, 388 and 389 each captioned:

"AN ORDINANCE OF THE CITY OF PARAMOUNT AMENDING ORDINANCE NO. 354 FOR THE PURPOSE OF AMENDING THE REDEVELOPMENT PLAN FOR REDEVELOPMENT PROJECT AREA NO. 1."

**SECTION 3.** Said Ordinances adopted and amended the Paramount Redevelopment Plan and Project Area No. 1, and vested the Paramount Redevelopment Agency with the responsibility for carrying out the same. Although there has been development and/or redevelopment of properties within the original and amended Project Area boundaries, there still are serious problems and conditions of blight both within and outside of the Project Area boundaries which represent physical, social, economic and environmental liabilities and impede redevelopment of these properties. In addition to the blight conditions which continue to exist in the original and previously amended Project Area, other areas of the City reveal various blight characteristics and conditions which include:

- a. The need for additional public and private utilities in order to accommodate the development of properties within the Project Area boundaries, including the need for additional water service, storm drains and sewer facilities, and for the development of fire protection and prevention facilities.
- b. The lack of proper utilization of many properties within the Project Area boundaries resulting in development constraints on a number of these properties, thus producing a stagnant and unproductive condition of land which is otherwise potentially useful and valuable.
- c. The unproductive use of land resulting from fragmented ownership of certain parcels of property which are of peculiar development characteristics and/or miscellaneous sizes.
- d. The unimproved, defective and/or inadequate construction of street improvements and public/private utilities within the Project Area which has resulted from the uncoordinated development pattern of certain of the property with the Project Area.
- e. The lack of adequate public facilities, including open space and other places of recreational activity, which are necessary to serve the property within the Project Area boundaries.
- f. The deterioration of many structures within the Project Area and the lack of development or redevelopment within the Project Area which has resulted because of the inadequacy of the required public facilities and services necessary to accommodate the redevelopment of the area in cooperation with the private sector.
- g. Mixed and inefficient land utilization of central business district resulting in a decline in the economic solidarity of this business area and Project Area.
- h. The potential utilization of properties and thoroughfares in the community resulting from the construction of Interstate 105 and resulting in social, physical, economic and environmental blight which the City has limited means to mitigate.

80- 1297056

**SECTION 4.** The Paramount Redevelopment Agency has therefore recommended to the Paramount City Council that it is necessary and/or desirable to amend the Paramount Redevelopment Plan, expand Project Area #1, and further authorize the undertaking by the Paramount Redevelopment Agency, independently and/or in conjunction with other public agencies, of various improvements as are described in the amended Redevelopment Plan, in order to eliminate and to alleviate the conditions of blight which exist and to provide for the maximum implementation of the Paramount Redevelopment Plan.

**SECTION 5.** The Paramount Redevelopment Agency has found and determined that the Paramount Redevelopment Project Area, and all areas previously and presently amended, are characterized by the conditions of blight which have been set forth above. These conditions represent physical, social and economic liabilities which require a redevelopment plan in order to properly provide for the development of these properties in a manner which is consistent with and in the interest of general welfare. In addition, the Redevelopment Plan shall be a guideline for implementing the objectives set forth hereinafter so as to insure that the policies, goals and objectives of the Paramount Redevelopment Agency, the Paramount City Council and the laws of the State of California are complied with and implemented in a manner which is most in keeping with the general welfare.

**SECTION 6.** The Paramount City Council does determine and declare that in addition to those statements contained in Ordinance No.'s 354, 385, 386, 388, and 389 relating to the City Council's purpose and intent in adopting and amending the Redevelopment Plan on December 18, 1973 and February 13, 1975 respectfully, which statement of purpose and intent is incorporated herein by reference, the Paramount City Council does further declare that its purpose and intent with respect to adopting the amended Redevelopment Plan and Project Area is:

- a. The elimination of existing blighted conditions, be they properties or structures, and the prevention of reoccurring blight in and about the Project Area.
- b. The development of property within a coordinated land use pattern of residential, commercial, industrial, recreational and public facilities in the Project Area, consistent with the goals, policies, objectives, standards, guidelines and requirements, as set forth in the City's adopted General Plan and Zoning Code.
- c. The development of public services and facilities including but not limited to recreational, maintenance, and operation services and facilities as are necessary and required for the development of the Project Area.
- d. The elimination of environmental deficiencies including inadequate street improvements, inadequate utility systems and inadequate public services; and mitigation of I-105 freeway impacts, including its circulation movement and its potential social, physical and environmental characteristics of blight anticipated.
- e. The development of more efficient and effective circulation corridors, free from hazardous vehicular and pedestrian and bicycle interfaces and designed to their ultimate circulation flow.
- f. The implementation of techniques to mitigate blight characteristics resulting from exposure to the I-105 freeway and affecting adjacent properties within the Project Area.
- g. Beautification activities to eliminate all forms of blight, including but not limited to visual blight, in order to encourage community identity.
- h. The encouragement, promotion and assistance in the development and expansion of local commerce and needed commercial and industrial facilities, increasing local employment opportunities, improving the economic climate, and establishing prosperity within the Project Area, particularly in the Central Business District.
- i. The acquisition, assemblage and/or disposition of sites of usable and marketable sizes and shapes for commercial, industrial, recreational and public facility development within the Project Area.

30-1297056

- j. The creation of a more cohesive and unified Paramount community by strengthening the physical, social and economic ties between residential, commercial, industrial and recreational land uses within and about the Project Area.
- k. The acquisition and disposition of property for the purpose of providing relocation housing, as may be required, to implement the objectives of this Plan.
- l. To provide for low and moderate housing availability as required by County, region or state law and requirements as necessary and desirable, consistent with the goals and objectives of the community.
- m. To encourage the coordination, cooperation and assistance of other local agencies, as may be deemed necessary, to ensure that projects undertaken by this Agency are implemented to their fullest and practical extent.
- n. The achievement of a physical environment reflecting the high level of concern for architectural and urban design principals deemed important by the Paramount community.
- o. To encourage community involvement and citizen participation in the adoption of policies, programs and projects so as to ensure that the Redevelopment Plan is implemented in accordance with the objectives, and the goals, of the Paramount General Plan.
- p. To provide a procedural and financeable mechanism by which the Agency can assist, compliment and coordinate public and private development, redevelopment, revitalization and enhancement of the Paramount community.

SECTION 7. The proposed amended Paramount Redevelopment Plan and Project Area, as amended after public hearing and as recommended by the Paramount Redevelopment Agency and the Paramount Planning Commission, is hereby approved and adopted and designated as the official amended Paramount Redevelopment Plan and Project Area.

SECTION 8. The City Council acknowledges receipt of and files Resolution No. 80-245 adopted October 2, 1980 by the Board of Directors of the Central and West Basin Water Replenishment District, and Resolution 7821 adopted October 14, 1980 by the Board of Directors of the Metropolitan Water District of Southern California and a Resolution adopted December 2, 1980 by the Board of Supervisors as the governing body for the County of Los Angeles and the County Flood Control District electing to be allocated certain revenues attributable to any increase in these Districts' tax rates which may occur after the tax year in which this Ordinance becomes effective, pursuant to SECTION 33675 of the California Health and Safety Code; and has provided for such allocation for Sub-Project Areas F and G in accordance with Section 700.60 of the Paramount Redevelopment Plan, as amended.

SECTION 9. All other written and oral objections to the amended Paramount Redevelopment and Project Area are hereby overruled.

SECTION 10. The amended Redevelopment Plan shall hereinafter be referred to as the "Paramount Redevelopment Plan, as amended" and Redevelopment Project Area No. 1, as amended, shall hereinafter be referred to as the "Paramount Redevelopment Project Area, as amended" and shall incorporate Sub-Project Areas A through F, all to be incorporated hereof as if set forth in full.

SECTION 11. The City Council hereby finds and determines that:

- a. It is necessary and/or desirable to amend the Paramount Redevelopment Plan and Project Area adopted by the City of Paramount on December 18, 1973, and amended on February 13, 1975, to encompass the additional property referred to in the amended Paramount Redevelopment Plan and to provide for these amendments to the said Plan and authorize the development and/or construction of such facilities and/or improvements as are set forth in the same amended Paramount Redevelopment Plan.

80- 1297056

- b. The amended Paramount Project Area (Sub-Project Areas A through F) is a blighted area, the redevelopment of which is necessary to effectuate the public purposes declared in the California Community Redevelopment Law.
- c. The amended Paramount Redevelopment Plan will provide for redevelopment of properties within the amended Paramount Project Area boundaries in a manner conforming with the California Community Redevelopment Law and in the interests of the public peace, health, safety and general welfare.
- d. The adoption and carrying out of the amended Paramount Redevelopment Plan is economically sound and feasible since it is based upon the Paramount Redevelopment Plan which has been shown to be both economically sound and feasible as a financing mechanism for the Paramount Redevelopment Agency.
- e. The amended Paramount Redevelopment Plan conforms to the General Plan of the City of Paramount.
- f. The carrying out of the amended Paramount Redevelopment Plan will promote the public peace, health, safety and general welfare of the community and will effectuate the purposes and policy of the California Community Redevelopment Law.
- g. The condemnation of real property, as is provided for in certain limited circumstances in the amended Paramount Redevelopment Plan, is necessary to the execution of the Paramount Redevelopment Plan and adequate provisions of just compensation for any property to be acquired as is provided by law.
- h. The relocation of persons or businesses is not anticipated or at best would be minimal. However, the Redevelopment Agency has a feasible method or plan for the relocation of families and persons who might be temporarily or permanently displaced from the amended Project Area through the implementation of the amended Paramount Redevelopment Plan.
- i. There are or are being provided in the amended Project Area or in other areas not generally less desirable in regard to public utilities and public and commercial facilities and at rents or prices within the financial means of the families and persons displaced from the amended Project Area, decent, safe and sanitary dwellings equal in number to the number of and available to such displaced families and persons and reasonably accessible to their places of employment.
- j. Inclusion of any lands, buildings or improvements which are not detrimental to the public health, safety or general welfare are necessary for the effective redevelopment of the amended Project Area of which they are a part; and that such areas included are necessary for effective redevelopment in the community and are not included for the purpose of obtaining the allocation of tax increment revenues from such areas pursuant to Section 33670 of the California Health and Safety Code, without other substantial justification for their inclusion.
- k. The elimination of blight and the redevelopment of the Project Area could not be reasonably expected to be accomplished by private enterprise acting alone without the aid and assistance of the Redevelopment Agency.

**SECTION 12.** The City Council, although it does not contemplate the relocation of residents, is satisfied that within the Project Area boundaries or within the greater community, permanent housing facilities ~~etc.~~ will be available within three years of the time occupants of the amended Project Area are displaced, and pending the development of such facilities, there will be adequate housing available to such displaced occupants at rents comparable to those in the community at the time of their displacement.

**80- 1297056**

**SECTION 13.** The City Council acknowledges that not less than 20 percent of the revenue derived from the allocation of taxes, pursuant to Section 33670 of the California Health and Safety Code, from Sub-Project Areas F and G of the amended Project Area, shall be used by the Redevelopment Agency for the purposes of increasing and improving the community's supply of housing for persons and families of low or moderate income, and very low income households, unless through the implementation of the amended Redevelopment Plan, one of the following findings are made:

- a. That no need exists in the community, the provision of which would benefit the project area to improve or increase the supply of housing for persons and families of low or moderate income or very low income households; or
- b. That some stated percentage less than 20 percent of the taxes which are allocated to the Redevelopment Agency is sufficient to meet such housing need; or
- c. That a substantial effort to meet low and moderate income housing needs in the community is being made, and that this effort, including the obligation of funds currently available for the benefit of the community from state, local, and federal sources for low and moderate income housing alone or in combination with these revenue allocations is equivalent in impact to the funds otherwise required to be set aside pursuant to this section. The City Council shall consider the need of low or moderate income or very low income households from within or adjacent to the Project Area, because of increased employment opportunities, or because of any other direct or indirect result of implementation of the Redevelopment Plan.

Nothing in this section or as similarly set forth in the Redevelopment Plan, as amended, shall apply to Sub-Project Areas A, B, C, D or E except as hereinafter approved and adopted by the Redevelopment Agency and adopted by separate ordinance of the City Council of the City of Paramount.

**SECTION 14.** The City Council is convinced that the revenues derived from the allocation of taxes pursuant to Section 33670 of the California Health and Safety Code are in whole necessary for the effective implementation of the amended Redevelopment Plan and that the effect of tax increment financing will not cause a severe financial burden or detriment on any taxing agency deriving tax increment revenues from Sub-Project Areas F and G. However, the City Council agrees to authorize the Redevelopment Agency to enter into a contractual agreement with the County of Los Angeles to reimburse the County with certain tax increment in accordance with Section 700.34 of the Redevelopment Plan, in order to minimize any future financial burden on County fire, flood control, library services and maintenance.

**SECTION 15.** In order to implement and facilitate the effectuation of the amended Paramount Redevelopment Plan which is hereby approved and adopted, it is found and determined that certain official action must be undertaken by the City of Paramount with reference to, among other things, the following:

- a. Institution and completion of proceedings for opening, closing, vacating, widening, or changing the grades of streets, alleys, and other public rights-of-way, and for other necessary modifications of the freeways, streets, the street layout, and other public rights-of-way in the amended Project Area. Such action by the City shall include the requirement of abandonment and relocation by the public utility companies of their operations in public rights-of-way as appropriate to carry out this Plan.
- b. Institution and completion of proceedings necessary for changes and improvements in publicly owned public utilities within or affecting the amended Project Area.
- c. Revision of zoning within the amended Project Area to permit the land uses and development authorized by this amended Redevelopment Plan; provided that such action is consistent with the amended Paramount Redevelopment Plan.
- d. Performance of the above, (and all other functions and services relating to public health, safety and physical development normally rendered in accordance with a schedule which will permit the development of the amended Project Area) shall be commenced and carried to completion without unnecessary delays.

- e. The acquisition of property, and/or the development of publically owned property in cooperation with the Agency and/or other public agencies with such public facilities and public uses as are determined necessary and/or desirable to effectively eliminate or mitigate blighting conditions.
- f. The undertaking and completion of any other proceedings necessary to carry out the amended Paramount Redevelopment Plan.
- g. Diligently negotiate, in conjunction with the Redevelopment Agency and other taxing jurisdictions, to alleviate any financial burden or detriment caused to the taxing entities as a result of the amendment of the Project Area by the inclusion of Sub-Project Areas F and G should such detriment be found to exist in the future and during the implementation of the Amended Redevelopment Plan.

**SECTION 16.** The City Council of the City of Paramount agrees and does hereby:

- a. Pledge its cooperation in helping to carry out the amended Paramount Redevelopment Plan and requests the various officials, departments, boards and agencies of the City of Paramount having administrative responsibilities in the premises, likewise to cooperate to such extent, and to exercise their respective functions and powers in a manner which is consistent with the amended Paramount Redevelopment Plan.
- b. Stand ready to consider the taking of appropriate action upon proposals and measures which are designed to effectuate the amended Paramount Redevelopment Plan.

**SECTION 17.** The City Clerk is directed to send a certified copy of this Ordinance to the Paramount Redevelopment Agency, and the Paramount Redevelopment Agency is vested with the responsibility of carrying out the amended Paramount Redevelopment Plan.

**SECTION 18.** The City Clerk is hereby directed to record with the County Recorder of Los Angeles County, a description of the land within the amended Paramount Project Area and a statement that proceedings for the redevelopment of the amended Project Area have been instituted under the California Community Redevelopment Law. The Paramount Redevelopment Agency is hereby directed to effectuate recordation of documents in accordance with the provisions of Section 27295 of the Government Code to the extent they are applicable.

**SECTION 19.** The Building Department of the City of Paramount is hereby directed, for a period of two years, to advise all applicants for building permits in the amended Project Area boundaries that the site for which a building permit is being sought for the construction of buildings or for other improvements is within the amended Paramount Redevelopment Project Area.

**SECTION 20.** The City Clerk is directed to transmit a copy of the description and statement recorded by the City Clerk pursuant to Section 18 of this Ordinance, a copy of this Ordinance adopting the amended Paramount Redevelopment Plan and a map or plate indicating the boundaries of the amended Project Area to the auditor and tax assessor of Los Angeles County, to the governing body of each of the taxing agencies which levies taxes upon any property in the Project Area, and to the State Board of Equalization, within thirty (30) days following the adoption of this Ordinance.

**SECTION 21.** Severability. If any clause, paragraph, section, subsection, sentence, or portion of this Ordinance or the amended Paramount Redevelopment Plan or any project provided for therein, is challenged in a court of competent jurisdiction and is thereafter declared to be unconstitutional, illegal, inoperative or otherwise ineffective, such decision shall not affect the validity of the remaining portion thereof. The City Council of the City of Paramount hereby declares that it would have adopted this Ordinance and each clause, paragraph, section, subsection, sentence, or portion thereof, or the amended Paramount Redevelopment Plan or any project provided for therein, irrespective of the fact that any one or more sections, subsections, clauses, phrases, or portions be declared invalid or unconstitutional.

**SECTION 22.** Until such time as this Ordinance becomes effective for all purposes, Ordinance No. 354, as adopted by the Paramount City Council on December 18, 1973, and Ordinance No.'s 385, 386, 388 and 389, as adopted by the Paramount City Council on February 13, 1975 and the accompanying Paramount Redevelopment Plan and Project Area adopted thereby, shall remain in full force and effect for all purposes and the Paramount Redevelopment Agency shall be vested with the responsibility of implementing and carrying out the Paramount Redevelopment Plan and is directed to undertake all activities and/or projects as is provided, authorized or contemplated in the said Paramount Redevelopment Plan, in order to provide for the redevelopment of the Project Area.

**SECTION 23.** The City Clerk shall certify to the passage of this Ordinance and cause the same to be published and posted in the manner provided by the Charter of the City of Paramount.

PASSED, APPROVED and ADOPTED this 19 day of December, 1980.
